The Pentecostal Association at Independence baptized ten members into the organization last Sunday. A part of this number were rebaptisms the former baptism not having been considered authoritative.

Mrs. Samuel Kohnke has been taken to the hospital at Salem for treatment. Some three weeks ago she became overheated and caught cold in her eyes from the effect of which she has lost the sight of one of her eyes. For three weeks she had to sit in a darkened room on account of the severe pain caused by the light but she is getting better. Her daughter, Laura, is with her.

We met our old friend George T. Hoathby on the street a day or two ago when he made the remark "that insanity was increasing in the human family." We scanned him quite closely to see just where he was touched and then it came out that he had purchased a "Fied." The auto is all right but you see the trouble is this: He has been making his way so long pattered on the "huffiane" deck of a Cayuse that he is afraid he will have to provide himself with hands and spurs and a cat o' nine tails to crank up the messy thing. We'll risk the guess that he'll come through all right.

However the company has set the 1st day of April as the time to commence manufacturing cheese. 600 gallons of milk will be consumed each day in the cheese department.

Better Telephone Service

O. F. Casper, owner of the Independence Telephone System, has made his promise good by putting in a new switch board in the Monmouth office. The change was made last Sunday and there is a very perceptible improvement in the service. The new switch board is the equal of any board anywhere although it is one size smaller than the largest. The service is first class. The board cost over \$300.

The Priscilla Club

At the last meeting of the Club Miss Myra Butler gave a very interesting and instructive talk on the relative value of food units, demonstrating by an object lesson the relative proportions of a well balanced menu.

The Club will be entertained Saturday, March 20, at the home of Mrs. Wm. Mulkey. The program will include a solo by Miss Alberta Green and a reading by Miss Sudah Cohoon of the Normal Faculty.

Dallas Water Deal Off

The council last night, with all members except Alderman Gohrke voting aye, instructed the auditor to discontinue further proceeding toward the purchase of the water plant, and authorized the city attorney to draft an ordinance for presentation at the next session repealing the ordinance which provided for submitting the question to the people for their approval or rejection. This action was taken because of the fact that public sentiment is against the buying of Mr. Gates' equity in this utility, and to save the unnecessary expense of a special election on May 10 next.—Observer.

FOR GREATER EASE AND COMFORT we recommend

• White Cat Union Suits—a leading line with us. We want to demonstrate for you "how" these suits give smoothest comfort.

• They have the knitted Klosed-Krotch like a pair of drawers without a seam. Smooth, unbroken crotch prevents gaping open. No double thickness and no loose folds of cloth to sit upon. No opening of raw edges run to or through the crotch to cut and irritate.

Ask to see the cause of all the comfort—the seat opening down one leg.

You will see "at-a-glance" more reasons for comfort than we could tell you in a half hour.

We are waiting to demonstrate the greater comfort for you.

Come in now before the cold weather gets here.
