

DE LAVAL

Cream Separators

ARE TIME TESTED

Every little while you hear of some brand new cream separator, claiming to be a "world beater" and just as good as the De Laval but a little cheaper. These "mushroom" machines stay in the limelight only until they are "found wanting" by the the users and in a short time drop out of sight.

It takes years of experience to build a "good" cream separator. More than 30 years of experiments and experience have made the De Laval pre-eminently the best machine on the market for the separation of cream from milk.

If you buy a De Laval you run no risk of dissatisfaction or loss. It's time tested and time proven. Why experiment? Why take chances with an inferior machine when you know that the De Laval is the best machine for you to buy.

If you are thinking about buying a separator we will consider it a favor if you will permit us to set up a De Laval for you on your own place and have you give it a fair trial.

THE WINTER SEASON IS

Hard on Fences and Fencing. Spring-time always requires readjustment, and now is the time to take stock of your requirements and lay in your material for making repairs.

Pruning The Gooseberry

Pruning the gooseberry to a bush form in this country is recommended by Prof. C. I. Lewis, chief of the O. A. C. division of Horticulture. Berries are borne on the two, three and four-year old wood but occasionally the fruit grows too small on the four-year old wood and it should be pruned out. The current bears most of its fruit on the two and three-year old wood. All canes of either of these fruits should be cut out when they begin to droop toward the ground, and all canes that are weak. The plant should be reduced to the number of plants that will grow in a vigorous condition. When canes tend to grow gnarly, old and weak, they should be removed. The entire planting should be renewed in from six to ten years. While the bushes will fruit for a longer time the fruit tends to grow too small to be profitable.

Swoyersville, Pa. - Justice of the Peace Henry Miller, of this place, was so angry at the defiant and unrepentant attitude of a wife beater on trial before him that he peeled his coat and sailed into the defendant. When court adjourned the wife beater was so battered that his best friend would not recognize him. Also he was humble and repentant.

HAIR SWITCHES made from comings. Enquire at this office.

HOW

Is your old tennis racket?
Bring it in and get it restrung.

We have the Agency for the Spaulding line of Athletic Goods.
