

DE LAVAL

Cream Separators

ARE TIME TESTED

Every little while you hear of some brand-new cream separator, claiming to be a "world beater" and just as good as the De Laval but a little cheaper. These "mushroom" machines stay in the limelight only until they are "found wanting" by the the users and in a short time drop out of sight.

It takes years of experience to build a "good" cream separator. More than 30 years of experiments and experience have made the De Laval pre-eminently the best machine on the market for the separation of cream from milk.

If you buy a De Laval you run no risk of dissatisfaction or loss. It's time tested and time proven. Why experiment? Why take chances with an inferior machine when you know that the De Laval is the best machine for you to buy.

If you are thinking about buying a separator we will consider it a favor if you will permit us to set up a De Laval for you on your own place and have you give it a fair trial.

THE WINTER SEASON IS

Hard on Fences and Fencing. Spring-time always requires readjustment, and now is the time to take stock of your requirements and lay in your material for making repairs.

The Odd Fellows and Rebekahs are preparing to give a Basket Social Saturday night.

Mrs. A. F. Huber and children and her mother, Mrs. D. M. Hampton, were Salem visitors last Saturday.

Jack Moore was in town a few days ago having brought in about three dozen fine, large chickens which he disposed of to Allen Clark.

Russell Quisenberry is here this week and will dispose of the household effects left by his mother when she moved to Eugene. The sale will take place Saturday afternoon.

J. L. Murdock has had some 15 head of cows brought down from the farm at Yamhill and is having them pastured near town and is disposing of the milk for the manufacture of cheese at the Monmouth creamery. Earl White came down and is taking care of the herd. Mr. Murdock expects to sell this bunch of cattle soon. Lee Griner helped drive the herd here.

Roads To Be Oiled

The Dallas Observer is authority for the statement that Judge Teal believes that road oiling is not only beneficial in preserving roads but a good advertisement for Polk county as well. About 100 miles of road is to be oiled to a width of twelve feet.

with a new disc harrow and several bunches of wire fencing which he purchased of Independence.

Athletic Boy is Warned Against Overdoing It

U. of O., Eugene, April 11.—Directions for school track athletes who have not the advantage of professional coaches are being issued by William L. Hayward, track coach of the University of Oregon, and will be sent free upon request. The instructions are intended to enable any boy or young man who wishes to excel in a certain event to learn the form for that event without the aid of a coach. The events covered are: sprints, 220-yard run, 440-yard run, 880-yard run, mile run, running broad jump, hurdles, high jump, pole vault, shot put and throwing the discus. Prevention and treatment of injuries are also dealt with.

"Generally the boy between 14 and 16 years is apt to overdo himself and should be watched very carefully," says Coach Hayward. "I have often seen boys who had natural athletic ability stay on the track all day and challenge everyone who came along just to show off. Needless to say, these boys did not last long as athletes. Their nervous systems were torn down faster than nature could build them up.

"My advice to all boys who have track aspirations is to make haste very slowly."

Brothers Are Wounded

Mrs. Godfrey Beck, who resides near this city and who has nine brothers fighting in the German army has received word that four of them have been wounded and that one of them has not been heard from for some time and may be a prisoner or dead.—Observer.

HOW
