The Principals' Club held its regular monthly meeting April 3, with the best attendance we have ever had. Gov. James Withycombe was present and gave a most excellent and interesting address on the subject "Education in Oregon viewed from the Governor's position." Every teacher in the county is proud of the fact that Gov. Withycombe attended this meeting as it is probably the first principals' club in the state ever to have a governor address it. This principals' club while it has been doing much

work in the past years for the schools of the county is undoubtedly doing greater work this year than ever before.

The Industrial Club Work of the County is still growing. Teachers are every few days reporting more pupils becoming interested in the work, and we have had this last month, many meetings at which the Industrial Club Work has been discussed. Parent-Teacher Associations over the county are many of them taking up this Industrial Club Work and giving the teacher and boys and girls the encouragement and backing that they deserve in this work.

H. C. SEYMOUR,
County School Superintendent.

A Curious Fish.

There is a fish with four eyes along the sandy shores of tropical American seas. It is the anableps and is unique among vertebrates on account of the division of the cornea into upper and lower halves by a dark horizontal stripe and the development of two pupils to each orbit. One pair of these appears to be looking upward, the other sidewise.
