To Supply Workers

The United States Government hereby notifies farmers, ranchmen, stockmen, fruit growers, hopraisers and all other employers that through the Employment Branch of the Department of Labor it is prepared to furnish free of charge workers in any number, male or female, skilled or unskilled, native-born or foreigners, English-speaking or those of alien tongue.

The Government's employment service is a national affair with branches in every large city of the United States. Through an interchange of information between these numerous offices, all the various districts or zones are kept advised of labor conditions throughout the country. If opportunities for work can not be filled by the district in which they originate they are referred

to other branches for action.

A large number of men and women have registered for work at the Portland branch. From this number it should not be difficult to secure help of any particular kind. Many of those who have found employment through the Government's service are English-speaking aliens who have had thorough agricultural training and experience in their native lands. Their thrift and steadiness together with their knowledge of intensive cultivation makes them valuable as farm-hands in this country.

The Government is particularly well fitted to supply seasonal labor, such as berry and apple picking and packing, hop picking, grain harvesting and other tasks that require the concentration of a large number of hands for a short but busy season. This was demonstrated in the Hood River valley during the recent strawberry harvest, for which the Government's Employment Branch supplied the majority of pickers, an inspector being detailed to Hood River to personally supervise the distribution of workers. Arrangements have already been made to register hop pickers for the approaching harvest, and applications are now being received from the growers for parties of pickers to be supplied at the opening of the season.

Any postmaster or agent of the Department of Agriculture is authorized to receive applications for help from employers or requests for work from those desiring same. Or, better still, such applications may be sent direct to the Employment Branch, Department of Labor, 424 Railway Exchange Building, Portland, Oregon, by which office they will be promptly acknowledged.
