

FIND THE OLD, OLD PATHS

Thus saith the Lord, Stand in the ways and see, and ask for the old paths, where is the good way, and walk therein, and ye shall find rest for your souls. But they said, We will not walk therein.—Jer. 6:16.

There is a way that seemeth right unto a man, but the end thereof are the ways of death.—Job 14:12.

Now, if a way seems right to man, Though it be rugged, hard and long, He'll strive with might to walk therein, Crushing those things he thinks are wrong.

He in that way may go through life, Lured by thoughts of a heavenly home, Never a thought of wrong nor strife, Nor a doubt of where he's going.

He may be wrong, he took the stand That where others had walked before, He could travel and safely land, On far-away heaven's bright shore.

He could have asked the loving Lord To learn if this highway was right; Whether 't was made by God or man, And if it would lead him aright.

One path to God had long been laid By Jesus Christ, the holy one, All others truly are man-made, Assuredly they will lead men wrong.

God's paths are marked, his gracious hand Hath set his sign-boards by the way, And those who travel Canaan's strand Still find those marks the same today.

A sign Christ gave when Jordan's stream, The place where John baptised, was reached, And healing was a gospel theme

Whenever Christ his message preached. He healed the blind, and cured the lame, The lepers from their bonds set free, He sent his chosen in his name—

He stilled the waves on Galilee. Thus he was sent to heal and preach And show God's mighty power to save

The human race from Satan's reach, From death, hell and the open grave. So, Jesus paid the price in full, The ransom for the souls of man, 'T was not the price of goat nor bull, It was the blood of God's own Lamb.

Now, let your search be far and wide To gain the old, old paths of day, That each may walk therein with Christ, While going home the good old way.

The New S. P. Line to Coos Bay

Through trains to Coos Bay May 1, 1916, was the promise made by W. D. Campbell, assistant general manager of the Southern Pacific, returning with a party of Southern Pacific officials from a formal inspection of the new Willamette Pacific.

Mr. Campbell complimented Chief Engineer Hoey highly upon the work done on the road.

"It's a good railroad," responded the engineer. "We could have built a railroad from Eugene to Marshfield in less time, but not this kind of a railroad. It's better than many trunk lines in the east."

Supt. Campbell says: "I was agreeably surprised to find such splendid country through which the new line passes, particularly about Marshfield and North Bend."

"The road passes through the most delightful places. I never saw more beautiful locations for tourists than along those lakes south of the Siuslaw—the shooting is good, the fishing is good, the scenery is good, and the water is excellent."

"The country is susceptible to wonderful development."

The rails will be all laid south of the Umpqua bridge long before its completion, the ballast has to come from Eugene and this is causing part of the delay.

Mr. Campbell referred to the line to Myrtle Point, as a valuable feeder, extending into the coal field and timber region.

For Milady's Toilet

The annual statement of the Geological Survey on the production of talc and soapstone, for 1914, is now available for distribution. It credits the United States with producing more talc and soapstone than all the rest of the world combined, 172,296 short tons being marketed in 1914.

Pottery Exports

Canada imported nearly 62 per cent of the brick and tile and more than 66 per cent of the pottery exported from the United States in 1914, according to the United States Geological Survey; Central America and the West Indies ranked second, more than 25 per cent of the brick and tile exports, nearly 12 per cent of the pottery exports, and more than 23 per cent of the total exports from clay-working industries going to those countries.
