How to See the Fair
Oregon Building, Panama-Pa cific Exposition, Sept. 7.-Ore gonians who want to see the most of the big Exposition in the shortest length of time, at the leas expense in the long-run and with the greatest comfort and rea pleasure, should be located on the grounds. This is the conclusion of the writer after five months experience and innumerable conversations with those who have been both on and off the grounds. Since coming here the writer has lived in Oakland, in San Francisco, and upon the grounds. He believes that any coming for but one week cannot afford to locate down in the city, and really desirable places are no longer to be found, except occasionally, near the grounds. If the trip is to be of two weeks, at least one week should be spent wholly inside the grounds. Located at Inside Inn, for instance, one is able to see inside of one week all that can be seen in two weeks if one lives mornings from the grounds. The mornings here are the desirable time at the exposition, and this is the time wasted when one lives away. The night offers the wonderful illuminations and at eleven $0^{\prime}$ clock are the extraordinary illuminated flights of the aviators Mueh of this is necessarily missed if one must go by car down into Usually to spend the nights. Usually people get so tired that they really can not remain up When any comfort or pleasure. When at Inside Inn it is possible to take a rest whenever desired,
and it is tically everything to view practhe hotel windows. tvery convenience and comfort
at this hotel, the rates run f 3200 upward and breakfast can be had for fifty cents. There is a regular dining room, also a cafe where one can spend as much or as little as may seem desirable. The rooms are large desirable, furnished and a stay and Inside Inn is a real pleasure. If one does not care to eat at the hotel it is easy to find fairly good living at the Y. W. C. A. cafeteria or at several other eating places is not necessarily very strencous.
