

REGISTRATION OPENED JAN. 3

Card Index System Used and Full Name of the Elector Must Be Given

The registration of voters opened Monday, January 3, and closes thirty days preceding the primary election next May. The card index system will be used, and the full name of the elector must be given. County Clerk Robinson has not as yet appointed registrars in the county, but will do so within a few days.

The state constitutional amendment passed by the people at the last election requires that all aliens must have become fully naturalized before being allowed to vote in this state. Therefore, those persons who have only their "Declaration of Intention" (commonly known as first papers) cannot legally register for elections in this state. This law requires that "Final Citizenship Papers" (commonly known as second papers), be exhibited to the registration officer before he can register them.

Some confusion may result unless registering officers are careful in this respect, as in many of the old forms of naturalization papers the first papers, or "Declarations," are very similar to the second or "Final" papers. Under the former laws of Oregon, second papers were not required; declaration of intention, or first papers, being sufficient. Former registrations in this county do not show which were exhibited.

The following will give the requirements, also the status of the families of aliens:

Naturalized citizens must exhibit "Final" citizenship papers. If the father of an alien became naturalized before he (the child) became of age, he is a naturalized citizen, but must exhibit the father's papers or a copy of the same from the court issuing them.

A foreign woman married, to a citizen of the United States, is a citizen.

An American woman who marries a foreigner, takes the nationality of her husband, and must exhibit his papers if he becomes a naturalized citizen; at the termination of the marital relation, if she continues to reside here, she may resume her citizenship.

Foreign-born unmarried women must be naturalized themselves after they become 21 years of age, or by their father before they become of age; if married to a foreigner who is naturalized, she must exhibit his "Final" papers.

Any foreign woman who acquires citizenship by marriage to an American retains the same after the termination of marital relation, if she continues to reside here, and unless she make formal renunciation of citizenship.

Service in the U. S. army or navy of aliens does not, as is generally believed, imply citizenship, unless petition for final papers has been made and papers issued, such service eliminating only the necessity of "First" papers. — Observer.

Meetings at Christian Church

The meetings at the Christian church are growing in interest under the leadership of the minister, George C. Ritchey, and assistant, Evangelist A. W. Shaffer. Rev. Ritchey is preaching sermons this week more direct to the members of the church than to those of the world. The choir under the direction of Mr. Shaffer is growing in numbers and power in singing Gospel songs.

Friday evening the "Smile Chorus" will lead the singing. All the boys and girls of the city are invited to join this chorus.

Pleasantly Surprised

Just when the Normal students were leaving for their vacation, those staying at the C. G. Griffa residence gathered around Mr. and Mrs. Griffa asking them to hold a box the contents of which they were not allowed to see until after the girls had given the Normal yell. Then to their surprise they found the box to contain silverware.

Men Work Better When the Band Plays

The United States navy regulations contain this sentence, "The band shall play while coaling ship." No discretion is given to the commander or any one else, so that the band always plays throughout that most arduous, monotonous job. E. J. Delano, writing in the Manufacturers' News, says, "Uncle Sam has found by careful experiment that about 30 per cent more coal is put in with music than without." Mr. Delano mentions several great manufacturing concerns that have bands and find their playing at certain hours improves both quality and quantity of work.

The Spider.

It is very rarely that two spiders really fight. If by chance two are placed in one web the weaker or more cowardly instantly retreats or is captured and wound up by the stronger. Spiders are unflinching cannibals. They will breakfast off their brothers and dine off their sisters without any compunction, and, as regards what they eat, they seem to have no particular preference either for flies, gnats, moths, earwigs, daddy longlegs, bees, wasps or other small fry, all being eaten with the same eagerness.

Taking No Chances.

"So you're leaving to get married, Mary?"
"Yes, mum."
"And how long have you known the young man?"
"Three weeks, mum."
"Isn't that a rather short time? Don't you think you ought to wait until you know him better?"
"No, mum. I've tried that several times and every time the man changed his mind when he got to know me better." — Detroit Free Press.

Between Two Fires.

"I'm in trouble with my girl," said the first youth disconsolately to his friend.
"Why, what's the trouble?" said the other sympathetically.
"I've been saying such nice things to her that she's getting conceited. Now, if I stop she'll think I don't care for her any more, and if I go on she'll think she's too good for me." — Ladies' Home Journal.

The Sharp Professor.

"Now," said the medical college professor to the class, "we will proceed to the dissecting room, where the body lies, just ahead."
"I beg your pardon, sir," remarked the fresh student, "but how can it be a body if it's just a head?"
"It can't be," replied the professor, beaming benignly over his glasses. "That's the reason I said it lies."
