

If you want the best
in PLOWS buy

The farmer who buys either the New Deere Gang or Sulky Plow gets absolutely the finest, most servicable implement of its kind ever produced. Before buying such a tool you'll want to know how it's built, how it works and what it will do for you. As to quality of the material and workmanship the name Deere on it is a sufficient guarantee for you on those points. For ease of operation and light draft the New Deere will be a happy surprise to you. The many new features which enable the operator to do work with it he never could do before, with a sulky or gang plow, are marvels of simplicity and effectiveness. It takes a whole book and a lot of illustrations to explain them all, and we know you will want to read the book.

We feel sure we have just
what you want in
wire fencing

Divorce Courts

Get a Hard Blow

every time a young couple start out life with a home of their own. The home is the best intermediary known for those little differences that are apt to arise in the course of even the best regulated families, because of the mutual interest it holds for both. Again, the home comes in as "the backbone of the Nation"—Guess Theodore Roosevelt knew what he was talking about—eh? It certainly behooves every family to give this question careful consideration, and there will never be a better time than right now to begin. Lumber is plentiful, and the price is in keeping with the quality—at least it's that way in our yard—and we don't believe it will ever be any cheaper. We've got some good ideas about modest homes that we'll give you free if you'll come in when ready to build.

"There's No Place Like Home."
