

Airlie News

Feb. 24, 1916

The Joint Parent Teachers' Association held at Elkins School last Saturday between Airlie and Elkins associations was a splendid success. It was well attended by parents and teachers from both places. The meeting was addressed by Mr. Evenden and Mr. Pittman of the Normal School. A splendid paper was read by Mrs. Loughary on the Child Betterment Movement. The Country Unit Plan of school administration was discussed generally. At noon a delicious lunch was served by the ladies of Elkins. A pleasant and profitable day was spent by all. The High School gave the drama, "Joe Ruggles" at Kings Valley Tuesday evening to a large and enthusiastic audience. The proceeds have been applied on the play shed fund.

Mrs. Crowley and Dee Crowley are spending the week at Whitson with her daughter.

Last week the school was visited by Miss Plov, a teacher from Denmark, who is studying schools in the United States.

The program given by Miss Tapscott's room Tuesday was splendid and well enjoyed by those in attendance.

Miss Jeffries' room will give their Washington birthday program Friday evening at the Parent-Teachers' Meeting.

This week's Parent-Teachers' meeting promises to be one of the most interesting of the whole year. A joint debate of the County Unit Plan of school administration will be participated in by Mr. C. V. Johnson and Mr. Shewey for the affirmative and Mr. and Mrs. J. F. Ulric for the negative.

PATENTS

obtained through the old established "D. SWIFT & CO." are being quickly bought by Manufacturers. Send a model or sketch and description of your invention for FREE SEARCH and report on patentability. We get patents or no fee. Write for our free book of 300 needed inventions.

The Volcano Circle.

Volcanoes would seem to be arranged with more or less symmetry in belts circling the great oceans. A ring of fire surrounds the Pacific. Starting at the South Shetland islands, several hundred miles south of Cape Horn, a belt of volcanoes extend up the west coast of South America, Central America and North America; from Alaska it crosses the Pacific along the Aleutian islands to Kamchatka; thence it follows the east edge of the Pacific through the Kurile islands, Japan, Formosa, the Philippines, the Moluccas, the Solomon islands, the North Hebrides, New Zealand and finally ends in Mounts Terror and Erebus, on the antarctic continent.

A Historic English Castle.

Longleat castle, which is said to be the first well built house in England, was erected by Sir John Thynne, and its construction occupied twelve years, from January, 1567, until 1579. The first royal visitor to Sir John's noble mansion was Queen Elizabeth, and the story runs that the owner was not very anxious for his sovereign to see his home, as she might ask him where he obtained the money to build so stately a house. Sir John Thynne, who was knighted after the battle of Pinkie, was the factotum of the Protector Somerset, and it is said that he built Longleat from designs prepared by his fallen master for a house of his own.

Snapping Turtle Eggs.

A snapping turtle lays about two dozen eggs. These are placed in damp sand in a hollow scooped out by the turtle. The mother turtle almost or wholly buries herself in the sand. Then in crawling out she lets the sand over her shell fall upon the eggs, thus covering them. The eggs are white and almost perfectly round and have a very thin, hard shell.—St. Nicholas.
