

If you want the best
in PLOWS buy

The farmer who buys either the **New Deere Gang** or **Sulky Plow** gets absolutely the finest, most servicable implement of its kind ever produced. Before buying such a tool you'll want to know how it's built, how it works and what it will do for you. As to quality of the material and workmanship the name **Deere** on it is a sufficient guarantee for you on those points. For ease of operation and light draft the **New Deere** will be a happy surprise to you. The many new features which enable the operator to do work with it he never could do before, with a sulky or gang plow, are marvels of simplicity and effectiveness. It takes a whole book and a lot of illustrations to explain them all, and we know you will want to read the book.

We feel sure we have just
what you want in
wire fencing

brought calves out here to pasture last Saturday.

Clay Guthridge and Mike Toner were business visitors to Monmouth the first of the week.

EGGS FOR HATCHING

Well now is the time to be figuring on setting those hens for early chicks. If you favor the heavy breeds I can furnish you eggs for hatching from two especially mated pens of Barred Rocks of the famous O. A. C. laying strain.

One pen is mated with two choice male birds direct from the O. A. C. farm and the other pen with two choice male birds of my own raising.

I have decided to change the price of these settings to \$1 for 15.

A. H. CRAVEN,
Monmouth, Ore.
