

Have You Seen the New Grant Six?

THE Grant is the best six cylinder car in the world within several hundred dollars of its price. In size, in quality, in performance, in true economy the Grant Six stands out as supreme value. The Grant Six is in its second season. It is no longer on trial; it has made good in a broad, convincing way. A high grade six at a low price. Call and look it over.

Monmouth Heights

Miss Bessie Clark of Monmouth visited with her sister, Mrs. Retta Hamar, Thursday and Friday.

Geo. Swearingen was at the Geo. Rose hop yard near Independence last Wednesday.

Len Fishback after teaching a

seven months successful term of school at St. Joseph, returned home last Sunday.

Milt Bosley made a business visit to Crook county the latter part of the past week.

Mr. and Mrs. Geo. Heck and family were Sunday visitors at the home of Mrs. Dewitt of Monmouth.

Will Fishback spent Friday and Saturday with his sister, Mrs. Lettie Johnson of the Luckiamute.

Tom Strain and Herman Guin of Monmouth were on the Heights one day of the past week.

Miss Rose Page of McMinnville has been employed to teach the Sunny Slope school for the coming winter.

Frank Skeen and son Delbert of Monmouth were business visitors here last Saturday.

LOCAL AND STATE NEWS

Judging from a write up in last week's Independence Enterprise, Editor Clark, who is also a candidate for nomination as representative in the legislature, does not think a great deal of the prohibition law. This is a piece of information that will doubtless be of interest to the voters who have the "say so" in the nominating.

The E. Fluke building at Independence, built in 1858, is being torn down and will be replaced by a one story brick building.

Mrs. Chas. Lee of North Independence has asked the city of Independence to pay \$300 damages for a dislocated ankle due to a fall on a defective sidewalk. The city seems inclined to lay the blame for the sidewalk on

the Oregon Power Co.

His Queer Feeling.

A naval official praised at a dinner in Washington the old sea dog. "One of these typical old sea dogs," he ended, "was persuaded one day in Philadelphia to attend a tea. I met him a short time afterward and said:

"Well, Marlinspike, I hear you have been doing tea parties in Philadelphia?"

"Yes, sir," the old salt replied. "I did go to one tea party, sir."

"And how did you feel there among all those ladies?" I asked.

"I felt like a sperm whale doin' crochet work," he replied."

Walking and Balancing.

It is pointed out that in walking or running the arms and legs produce a "balancing" like that of the reciprocating and revolving parts of a locomotive. The movements of the legs react upon the trunk and tend to rotate it in alternate directions about a vertical axis. But the swinging of the arms, each in unison with the opposite leg, produces an opposing mechanical couple, the effect of which is to rotate the trunk in the other direction, thus balancing, in part at least, the rotating action of the legs.

Idleness.

It is an undoubted truth that the less one has to do the less one finds time in which to do it. One yawns, one procrastinates, one can do it when one will, and therefore one seldom does it at all, whereas those who have a great deal of business must buckle to it, and then they always find time enough in which to do it.
