The War Children of Paris.

How beautiful they are, the war children! How well cared for, how thriving, and how showered with love! Their prolonged sojourns in the Bois or in the gardens have freshened the bloom of their cheeks. Their immaculate pink-and-whiteness seems to testify to the girl mother's loving care of the now sovereign baby who for two years has had no rival. The mother's entire time is devoted to His Majesty, the baby, nor is he ever forgotten except occasionally when her thoughts wander to the absent one, she traces in the baby's dimpled face the sometimes fugitive, sometimes striking resemblance to his soldier-father. Sacred moments these when in the twilight the curly head and downy cheek resolve themselves into the pale or sunburnt features of one "somewhere in France."—Cartoons Magazine.

Start the year by getting Hanford's Balsam. You will find frequent use for it. Adv.

Gypsies Use Automobiles.

"Even gypsies are abandoning horses for motors," says the July Popular Mechanics Magazine. "A band of about 40 of these nomads recently visited Columbus, Ohio, traveling in three covered automobiles which had been purchased a short time before. Each motor was fitted up in true gipsy fashion, and portions of the tops were painted in the bright colors characteristic of the familiar gipsy wagons. In all, three families inhabited the three cars. The sage of the group was a woman 75 years old; the youngest of the children was three months old."

The Best Liniment.

For falls on icy walks, sprains and bruises, rub on and rub in Hanford's Balsam of Myrrh. Apply this liniment thoroughly and relief should quickly follow. Adv.

About Oregon

Mill Fire Loss \$100,000 at Banks.

Banks—Fully a million feet of lumber were lost in the fire which destroyed the mill of the Eccles Lumber company Saturday, and an estimate of the loss is placed at fully \$100,000 by officials of the company.

Whether or not the mill will be rebuilt has not been decided. M. H. Eccles, of Baker, owner of the mill, is expected here this week, when a decision may be announced.

The mill was insured, but officials were unable to say to what extent.

The mill was new and had been in operation only a few months. Shortly after completion nearly two years ago, it closed down after operating a few weeks and operations were not resumed until this spring. In the meantime a planer was added. The plant was equipped with the latest and most modern machinery.

How the fire started is a mystery. It was first observed about the center of the mill, and before any steps could be taken to check the flames, it had spread throughout the entire mill.

The Eccles Lumber company owns several mills in the state. This is the second loss they have sustained within a few months. Last winter their principal mill at Baker was destroyed, but has been rebuilt.

Dog Saves Oregon Professor's Son.

Eugene—Because of a fox terrier belonging to members of the Kappa Sigma fraternity recognized that Roger De Busk, aged 6 years, was in distress as he floundered in the millrace near the University of Oregon, the life of the little fellow was saved Wednesday.

The dog ran up and down the banks, as if greatly excited, attracting the attention of Glenn Shockley, a member of the fraternity, who went to the boy's rescue.

Roger is a son of Professor B. W. De Busk, of the university. He had fallen from the Alder-street bridge, and, being unable to swim, was carried down stream about 50 feet before being rescued. No one witnessed the accident, and but for the dog's conduct the boy probably would have perished.

Arguments to Come High.

Salem—It will cost about \$55 a page for all arguments submitted in favor of or against any initiative measures to be placed before the voters of the state in the November election, according to Secretary of State Oleott. It is impossible to say just what the size and extent of the pamphlet will be, or how many will be printed. The registration in 1914 was about 305,000, while the registration before the primary was about 230,000. This year the registration before the primary ran about 260,000, and it is expected the final figure will show a corresponding increase. One pamphlet is sent to each registered voter.

Lumbermen May Meet.

Klamath Falls—Plans are now under way for a convention of the California White and Sugar Manufacturers association here in August. Harold D. Mortenson, President of the Pelican Lumber company of this city, has charge of the arrangements for this meeting.

During the first week of August, the White Pine Manufacturers association of Spokane, will hold its annual convention at Bend, Ore. As this meeting will be attended by all pine lumbermen of the Inland Empire, the two organizations may meet here together to talk and formulate plans for better grading and market conditions.

Fire Patrols Sent Out.

Salem—The increase of logging operations, with consequent greater fire hazard, should be offset by increased efficiency of the fire patrol system of the state, thinks State Forester Elliott, who is directing the annual campaign against destruction of Oregon's most valuable resource.

Although its organization is not much larger this year than last, previous seasons' experience has enabled him to get closer working efficiency throughout the whole organization than ever before.

Twenty-six of 27 district wardens have received their badges and gone to their posts already.

Banks Mill in Doubt.

Baker—No definite plans for the rebuilding of the \$40,000 Eccles mill at Banks, destroyed Saturday by fire, will be made until the return of W. H. Eccles, president of the company, now in Ogdon, according to the announcement by Roland S. Eccles. Only a minor part of the contracts held by the Banks mill can be handled in Baker, it is said, because of the different class of lumber available.

—Six feet through at base, 4 feet 6 inches through at top, five feet above ground. Giant Stumping Powder did a clean job, taking out roots and all without tearing a big hole in the ground. Farmers who have used them know that

GIANT FARM POWDERS  
STUMPING — AGRICULTURAL

always save them money, time and work. They save money because they lift and heave as well as shatter, and go further than high explosives that merely split the stumps. They save time and work because they get out the stumps—big or little, green or dead—in a condition easy to handle. "I get better results from Giant Powders than from any other powder I have used," says A. E. Adkins, Woodburn, Ore.

There are two Giant Farm Powders, both made especially for Pacific Coast farmers. Eureka Stumping Powder is most economical for dry work and Giant Stumping Powder saves money in stump blasting in wet soil. Try these two. Compare them with the powder you have been using, and you will always use Giant in future. Write us and we will have our nearest distributor supply a trial case at the lowest market price.

Five Blasting Books FREE

Better ways of removing stumps and boulders, making ditches, planting trees, and breaking up the subsoil are described in our five illustrated books. They were written for western farmers, to meet the conditions that you have. Write us for the book on the subject you are interested in.

Guaranteed effective. Ask for Daisy Fly Killer. Sold by dealers, or sent by express, prepaid, \$1.25. HAROLD SOMERS, 160 DuKane Ave., Brooklyn, N. Y.

Her Proof.

The reading class was in session and the word "furlough" occurred. Miss Jones, the teacher, asked if any little girl or boy knew the meaning of the word.

One small hand was raised. "Furlough means a mule," said the child.

"Oh, no, it doesn't," said the teacher. "Yes, ma'am," insisted the little girl. "I have the book at home that says so."

Miss Jones told the child to bring the book to school. The next morning the child came armed with a book and triumphantly showed a picture of an American soldier riding a mule, under which was the caption:

"Going home on his furlough."—Philadelphia Ledger.
