The orders are to sell and these orders must and shall be obeyed at any cost. This sale will long be remembered by the most skeptical buyers as never before has any one attempted such a slaughter on prices. It is a great money saving event which you can not afford to miss. A chance like this comes but once in a lifetime. Remember this is not an odd and end sale which one sells in order to reap a profit. This is a sale of every dollars worth in the store, goods and fixtures must be sold and doors closed.
