### HOLD ON

Mr. Hoover has called on the American housewife to help conserve the food supply of our country. She has responded admirably. But have you ever stopped and considered the vast number of shoes that are discarded annually for want of proper attention. Our soldier boys wear out lots of shoes in their daily preparation to meet the "Kaiser." Shoes next to food are most essential for our Sammies. Wont you do your part in helping to conserve the fast diminishing leather supply of our nation by keeping your shoes repaired, thereby prolonging their wear. If you have a number of partially worn out shoes why not have them repaired and then play big brother to some less fortunate neighbor.

My shop is equipped to turn out work right. Your regular delivery man will call for and deliver your shoes if you prefer. "Send your work to me or we both lose."
