Standing at the portals of a New Year, we cannot forego the preachment of a little sermon. We have taken for our topic a subject of paramount interest and importance today, and one which is deeply con-

cerned with the welfare of every true American, for loyalty, is our theme. By loyalty we mean a strict adherence to a sound, reasonable sense of justice to one's self, to one's mind, to one's body, to one's associates; an abiding sense of justice in the home, the church, the school, or toward the nation. Loyalty is one of the most potent factors in the development of character; it constitutes the chief charm of personality; it adds to one's self respect. It is procreative of freedom of conscience. Have confidence in those whom we serve, or in those who serve us, and finally be brought to a realization that we have had a part in the maintenance of the great principle of right living.

It resulted in no road money coming to the city for the past year which has caused all the work which has been done, to have been financed by the over worked general fund.

Under the law the road money in cities is to be expended under the direction of the county court, which relieves the street committee of the council of the work.

The actual workings of this new law will be watched with interest.
