Eggs will be ready for delivery after February 1st.

## MONMOUTH HIGHWAYS

Vol. II Monmouth, Ore., Friday, Jan. 25, 1917 No. 13

Written, Edited and Set in Type by Students of Monmouth High School

Mr. Williamson of the U. of O. will lecture in the High School Auditorium Jan. 28, 1918. He will give an illustrated lecture on the Wonders of America. Mr. Williamson is a very interesting speaker and has some excellent pictures to illustrate the natural wonders of our great continent. This will be absolutely free. Come.

Come out and see the Basket Ball game between the M.H.S. and Buena Vista first teams. This should be a fine game. Come out and root for dear life.

The Athena Society gave a play entitled Betty Wales Girls. It was a grand success.

Because they were not used to a rough dirt floor the M. H. S. basket ball team was defeated at Rickreal last Thursday evening. The boys played a fine game in spite of this handicap and were only beaten by one point. The score was 22 to 23. Just wait

until Rickreal comes here and see what happens.

The measles have put several of our members on the blink this last week.

The M. H. S. migrated to the Normal Friday morning to hear the Canadian officers. They gave a fine lecture and all students report that it was thoroughly enjoyed.

A number of high school students gave a surprise party on Ruth Stone Monday night, in honor of her seventeenth birthday. The usual program was followed, until a late hour, when the refreshments in the form of chocolate, cake, and other anti-Hoover delicacies, were served by one of the girls. An interesting feature was the dancing lesson taken by Mr. Burton Bell, from Miss Lennie Shaw. After the entertainment, all departed, testifying that a fine time had been had.

The following extracts from a letter to the Monmouth I. O. O. F. will be of interest to Monmouth people.

We are still grinding away in preparation for service in France. Orders are very strict and discipline is becoming severe, but it is for the best, and there's no complaint. We are not allowed to give any definite information as to the movements of troops. It is sufficient to say that there is much going on which is carefully concealed from the public. Uncle Sam is pouring a stream of men into France.

However I do not look for an active campaign on the part of the American Army before summer. We were sadly unprepared for this gigantic struggle and sacrifice. And we have a big job ahead of us yet. In the language of Grant, "We'll fight it out on this line if it takes all summer." Let us hope that it will not take several sum-

mers.  
With best wishes to all I am,  
Very truly,

### Social Hour Club

The Social Hour Club met with Mrs. Pittman and Mrs. Ackerman at the Ackerman home, January 16. The afternoon was spent pleasantly in sewing, and discussing various ways and means of food conservation. Miss Maggie Butler read an instructive article relating to the Conservation of Food, and Mrs. Pittman gave an excellent and definite outline of what we may eat and what we are urged to conserve.

Light refreshments, of the "Hoover" variety were a pleasant closing feature of the afternoon.

Uncle Sam's employees always get an official discharge or release from duty. Ed Griffa, is displaying such a document, issued by the navy yard at Puget Sound, department of public works where he was employed as a helper at \$3.28 per day. These are strenuous times and every retailer should sell his goods as cheap as possible. In the past many of our people have been sending to Jones' cash store for goods and thereby making a small saving, but not always knowing just what they were going to get until they received the goods. And in many cases, after paying in advance for the goods many articles were not satisfactory.

When you wish to buy a bill of goods for cash come in and I will duplicate Jones' cash store prices, plus freight, and will guarantee every article money back if not pleased.

I also pay the highest cash and produce price for eggs. Come in and see me.
