

SOME REASONS WHY WHEAT MUST BE SAVED

"A Man Cannot Think, Work or Fight When He Is Hungry"—We Must Feed Our Soldiers.

"We have the preservation of the world on our hands. Every single living human being in this republic, from ocean to ocean, should make it his or her special purpose to save food."

These are the words of E. F. Cullen, personal representative of Herbert C. Hoover, in a recent address.

"Men will resist any power but the power of starvation," said Mr. Cullen. "Hunger in the final analysis, is the only force that can weaken a nation and demoralize an army. Food is strength, and without a perpetual supply of strength, the world can stand in danger of tottering, weakening and falling into utter chaos. A man cannot think, work or fight if he is hungry."

"The allies today are practically wholly dependent upon the United States for food. Upon this nation rests the responsibility of preserving the world from Prussianism. This is the task of the people of this nation—to produce and save food enough to keep a steady stream of essential supplies moving towards the front so long as it shall be necessary to wage this war. If at any time we fail in this, we must inevitably go down, with the allies, to defeat. This is no exaggeration, but a serious fact. It is the purpose of the United States Food Administration to bring the realization of this fact home to every American man, woman and child, and to enlist the individual aid of our hundred million people in producing and sav-

ing food. The Food Administration is not asking you to eat less; it only urges that you substitute one nutritious food for another equally nutritious food, thus saving the vital staples needed by our armies and the armies and people of the allies. We must, during the next three months, save wheat especially. Our surplus has already been shipped abroad, and a hundred million bushels more are needed. When you eat a slice of bread less, omit the crackers with your soup, or otherwise conserve on wheat products, you are contributing towards the hundred million bushels needed over there by our fighting men and the exhausted people of Belgium, France and England who have for more than three years been bearing the brunt of this war, which is our war. Keep this in mind, and bring it before the minds of your thoughtless friends and neighbors."

FOOD ADMINISTRATION FACTS

One ounce less of meat each day for everyone means a saving of 4,400,000 meat animals a year. Save your ounce. The sacrifice is small, but the result for your country is large.

1,185,000 tons of sugar will be saved the first year if each of us uses one ounce less each day. This will keep sugar plentiful and cheap.

The Allies are all in the same boat, a long way from shore and on limited rations—and Uncle Sam is running the relief ship. It's up to us to save the cargo.

Reduction, Production—the 1918 watchwords.

PROGRAM
