Y. P. S. C. E. Meeting, - 7.00 p. m.
Preaching Service, - 8.00 p. m.
Prayer Meeting Wednesday, 8.00 p. m.

AMERICAN NAVY ELIMINATES WASTE

SLICING BACON ON BATTLESHIP

JACKIES in the American navy are classed as the best fed body of men in the world. In the ship's galleys every effort is made to eliminate waste.

In the upper photo one of the cooks on the North Dakota is operating a meat slicer that cuts bacon with the least possible wastage. Fat is a fuel for fighters. Bacon is badly needed in the allied armies and navies. The allied needs in pork products are 150,000,000 pounds monthly, three times as much as before the war.

Another waste eliminator on the North Dakota is the potato peeler, shown in the lower photo. Nothing is lost except the actual potato skin.

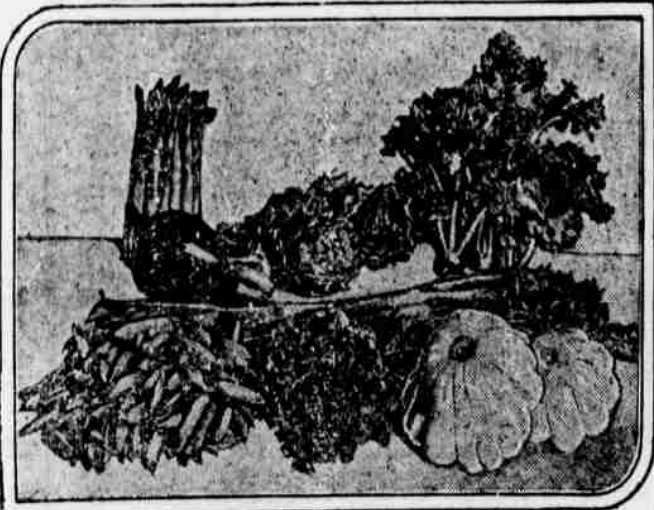

There is a sufficient quantity of po-

HOW THEY PEEL POTATOES ABOARD SHIP

tatoes in America for greater use in every home and for all needs of army and navy. Eat more potatoes, eat less wheat.

Plan Your War Garden Now, Save Time and Money.

HELP INCREASE OUR EXPORT FOOD STOCKS

IN CITY and country more war gardens are needed this year than ever before. Patriotism prompted 2,000,000 Americans to plant gardens last year, according to estimates of the United States Department of Agriculture. Transporting facilities of the nation will be strained this year hauling munitions of war and foods for the Allies. The surplus food created by home gardens will help in the railroad problem. And the nation will eat less of the goods we must export—wheat, meat, fats and sugar. Every boy and girl that helps with the garden is helping win the war. Leaflets of instruction in garden making may be secured from the Department of Agriculture at Washington, upon request, without charge.

The graduating class of the Dallas high school this year consists of twenty seven members and commencement exercises were held this week with Rev. C. P. Johnson preaching the baccalaureate sermon and Supt. J. A. Churchill, commencement orator on Friday evening.

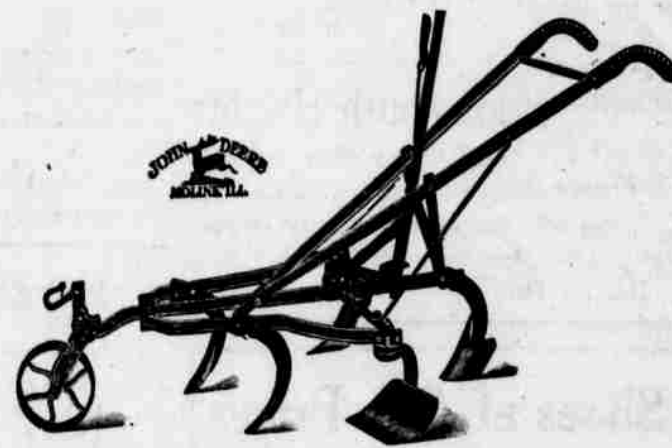

The Polk Yarnhill Marion Medical society met in Dallas last week.

County Surveyor H. A. Robb is about to embark in the lumber business. With others he has organized the Robb Lumber Co. and they will build and operate a small sawmill near Ellendale.

There is to be no train service other than freight on the line from Dallas to Perrydale, the only passenger on the line running from Broadmead to Perrydale.

Prof. Jas. T. Matthews of Willamette University was baccalaureate speaker for the Independence high school Sunday evening, the service being held in the opera

The King of the One-Horse Cultivators

John Deere Steel Five Tooth Soil Ticker

Frames of I beam steel and malleable iron. Shovel shanks of pressed steel. No better cultivator made. Let us show it to you.
