

DOMESTIC ECONOMICS

Organization of County by Women for War Work Purposes

The organization of the Home Economics work is well under way in the county under the direction of Miss Edna Mills, County Home Demonstration Agent.

On Wednesday, July 31, at 2:00 p. m. about fifty women from Perrydale and surrounding districts gathered in the Red Cross rooms and organized the Woman's Committee of the Council of National Defense. While the women busily quilted on Red Cross quilts, Miss Mills outlined the Home Economics work for the county and emphasized the necessity for preserving the winter's supply of fruits and vegetables by canning, drying and salting. Especial emphasis was given to canning with little or no sugar. Mrs. H. J. Elliott is chairman of

the work in Perrydale community, assisted by a committee of members from each of the surrounding districts.

Oak Point was organized on Thursday, August 1, with Miss Irene Williams as chairman of the Home Economics work. Much interest and enthusiasm was shown in this district by the large body of women present.

On Friday, August 2, Monmouth and Buena Vista communities were organized. The committee in charge of the work in Monmouth is: Miss Maggie Butler, Mrs. T. J. Edwards; Mrs. P. O. Powell, Cochran; Mrs. Hull, Mistletoe; Mrs. Loughary, Elkins; Mrs. Comstock, Antioch; Mrs. Rogers, Sunnyslope. Miss Gladys Reynolds is in charge of the work in Buena Vista district.

In the Home Economics work an effort is being made to stimulate the preservation of home grown products to such an extent that it will not be necessary to draw upon the commercial supply at all. It is hoped that a food preservation record will be kept in each family so that it will be possible to estimate the saving in materials, cans and transportation as well as the amount of sugar used for preservation in the county. Blanks will be available from the community chairman.

Other work to be carried out in the county is in clothing conservation, special attention given to renovation and remodeling; installation of various labor-savers in the homes of the county; and the various phases of health conservation, especially child welfare.

Smithfield, Polk Station, Buel and Independence communities are among the places to be visited by Miss Mills this week and organized for the work in Home Economics.

He has a flock of pullets hatched March 28 which started to lay August 1, or practically when four months old. While the eggs are small it must be acknowledged that a pullet which will lay when four months old deserves some credit for her enterprise.
