See Official Program for attractions and particulars.

Mrs. Braden Resigns Many Jobs

Mrs. Winnie Braden has resigned her numerous official positions in Dallas and Polk county and has accepted the position of manager of the department of business economy of the War Industries Board, which will be conducted in connection with the state council of defense with headquarters in Portland. Mrs. Braden will remain here until after the Polk county fair and will arrange the exhibit of this county at the state fair, after which she will go to Portland to assume her new duties October 1st. She will be greatly missed in Dallas and Polk county, where for a few years past she has been quite active in civic and public affairs.

Among the positions which Mrs. Braden has held simultaneously and which she relinquishes to take up her new duties are: Secretary of Polk County Fair Association. Secretary Dallas Commercial Club. Member of the Polk County Fair board. County Chairman of Woman's Committee of State Council of

Defense. Secretary of County Council of Defense. Assistant County Food Administrator. Vice chairman Woman's Liberty Loan Committee. County Chairman Woman's Land Army. County chairman Y. W. C. A. campaign committee. Correspondent for Oregonian.—Itemizer.

Save your Pits

A recent request has come from the War Department asking that housewives save all peach, plum and cherry pits and all kinds of nut shells for use in making carbon for gas masks. A later notice will inform you where these may be assembled—the important thing right now is to save them.

Mrs. T. J. Edwards, Community chairman Emergency Home Demonstration Work.

"Both wars must be won, against germs here and Germans there; keep the enemy on the run."

This is the slogan of the second annual Northwestern Tuberculosis Conference, representing Oregon, Washington, Montana, Wyoming, Utah and Idaho, which will be held

at the Hotel Davenport, Spokane, September 27 and 28 under the auspices of the National Tuberculosis Association. The general objects of the Conference are to discuss matters of special interest to the northwestern states; to bring the facilities and aid of the National Tuberculosis Association to bear more closely on local problems and to provide a place of meeting and discussion for those who cannot attend the annual meetings of the National Association.

"Buy until it hurts", "Give until it hurts", are two expressions that are often used, the one referring to the purchase of Liberty Bonds and the other to contributions to the Red Cross or Y. M. C. A. or kindred work. Both are fundamentally false in meaning. They should be sent to the scrap heap of rubbish and supplanted by "Buy until it helps" and "Give until it helps".

Do not for one moment vaingloriously think that this means until it helps the country or the Red Cross or the Y. M. C. A. organizations. It means buy or give until it helps YOU and gives YOU a

clearer understanding of your responsibility.

"Buy until it helps" you by broadening your vision of the war and the struggle to save civilization.

Buy Liberty Bonds not out of the surplus which you can spare without feeling. Buy not merely because the purchase of Liberty Bonds is strengthening the nation's power to fight. But buy because your soul needs the quickening influence of a wider conception of liberty and humanity and civilization. And the more freely you buy the greater will be the ennobling of your own soul. You will be helping yourself, and in that way you will at the same time be helping the nation and civilization.

It is no act of charity to buy Liberty Bonds. It is merely contributing a moiety out of your ability, great or small as it may be, for the purchase of the engines to stop the conflagration which, having swept over much of the world, is sweeping directly toward your house, and you must save your house by your own work, or else recreantly throw upon your neighbors the responsibility of saving you, while you stand off and shirk your duty.

Dallas is feeling the results of a dry summer in a shortage in the city water supply. At one time last week, according to the Itemizer it was feared there would not be enough water to supply the boilers of the Oregon Power Co. and which would have to shut down. The company, however, secured water by running a pipe to the mill race. Dallas obtains its water from Canyon Creek and this has become so low that the supply does not meet the demand. A special pump and pipe line have been used to take waters from the Rickreall and a special effort is necessary to maintain water enough for the prune dryers of the neighborhood, with whom a supply of water at this season of the year is a necessity.

A. L. Martin of Marshfield, formerly of the Oregon Power service in this county, tried to enlist recently and was told that as manager of the power line in Coos county where a great deal of government work is in progress, he could serve his country better than he could in the army.

The public schools of Dallas are to start work September 23.
