Memorial for Soldiers

Monmouth will undoubtedly wish to get in line with other patriotic communities of the country in providing some suitable memorial for those who have served in the great war, especially for the fallen heroes. Why not erect a neat and attractive building on the city park site to serve as a community center and club house for the people of the town and surrounding country, old and young, men and women, boys and girls. In this building should be a well equipped gymnasium, swimming pool, bowling alley, separate game and club rooms for boys, men, girls and women, ladies' parlors and rest rooms, ample accommodations for a public library and reading room. Rooms should also be provided for a regular meeting place for the commercial club, city council, civic clubs and other such organizations. The large gymnasium would make a commodious auditorium for mass meetings of various kinds, literary and musical programs, school commencements, union religious services, community fairs and bazaars and the like.

The building would be a common meeting place for the whole community and center for all community life and do more than anything else to promote healthy community spirit and true democracy. Being located on the main highway where each season thousands would pass by in cars what a splendid advertisement for the community. Can you think of a more appropriate memorial for those who served so well to save the world for democracy? Who will be the first to start the ball rolling for an early construction of the proposed memorial by making a substantial worth while gift for the great enterprise?

The committee made up of representatives of the several religious, fraternal and other organizations of the city which had its first meet in I. O. O. F. All are urged to be present as the special sub-committee has a very interesting and important report to make.
