A full attendance is desirable as the sub-committee will present a detailed report on the proposed Memorial Club house and Community Center building including suggestions as to the procedure for its erection and proper subsequent maintenance. The main features of the forthcoming report are:

That a mass meeting be called at an early date to ascertain the sentiment of the community and take necessary steps to launch the project by appointing soliciting committees, etc.

That the general plan as sketched by the secretary be taken as the basis and ideal to which to work. According to this plan the structure and equipment will cost an initial outlay of approximately \$15,000. It is understood, of course, that these plans are only tentative. After the pledges have been secured the final plans will be worked out to suit the funds in sight. The building as proposed will include library and reading room, social, game, and recreation rooms for both sexes of all ages, a combined gymnasium and city auditorium, etc. That this building be as a permanent memorial to the boys from his community who have served in the Great War.

It is of the utmost importance that every member of the large general committee be present and come prepared to express his own sentiments in regard to the proposition. Sunday afternoon a 2:30 in the I. O. O. F. hall.
