You Can Increase Your Yield 3 to 9 Bushels Per Acre

Several farms in California got 3 to 6 bushels, Illinois 5, Kansas $3\frac{1}{2}$ and Iowa 9 bushels more per acre by drilling small grain instead of broadcasting.

Here is the big advantage in drilling which we want all of our customers to understand—only one trip over the field is necessary to plant the seed. The drill completes four operations—it makes the seed furrows, drops and covers the seed and pulverizes the soil. Not necessary to drag a harrow over the field afterwards.

You will always need a machine of some kind for planting your small grain crops.

Why not get one from us now that will do all of this work—one that plants the seed at even depth so that the crop will all be ready for harvest at one time?

We have the drill in stock that we know will do the work for you. It is a John Deere-Van Brunt—the famous drill that has worked very successfully all over the country for forty years. We want you to know all about the Van Brunt Grain Drill. It has a patented adjustable gate force-feed that will interest you in the way it works. Come in and let us show you how easy it is to plant even, continuous streams of fine, medium or coarse seed with this drill.

Items of Interest

The infant daughter of Mr. and Mrs. Jas. Riddell was buried Tuesday afternoon. The little girl was not born with a sound frame and although she was taken to Portland and given special treatment, could not survive. Her parents have the sympathy of all.

A. N. Halleck has a Bartlett pear tree that grows two crops a year. He brought in a pear this week that was a blossom at the time the other crop was picked and has matured since that time.

Dr. Thompson is now making regular visits to twenty one Valley towns, in which, he has scores of satisfied patrons. He takes every precaution known to Optical Science, to assure his patrons absolutely correct glasses.

He offers you the combined service of an optometrist with years of experience and that of a competent, practical optician. Consult him about your eyes. Friday, November 21. Local hotel all day. 3t

TOOTH PASTE or TOILET SOAP

etc. We have a complete assortment.

Perkins' Pharmacy

If we haven't got it we'll get it. Ask us.

Normal Lodge of Odd Fellows came to life with a rush last Monday evening when a class of seven was given the initiatory degree into the order. The seven were: A. H. Craven, F. R. Bowersox, Ira Williams, Albert Sacre, George Sullivan, E. H. Huston and Perry Powell. The local goat for once got his fill of work although he was in fine form and beyond an occasional dash of cayenne pepper on his beard, needed no stimulant to keep him at work. A company of brethren from the Independence lodge attended to witness the program.

Gordon Bowman of American Bottoms was a visitor in Monmouth Friday. Gordon raised 3,000 bushels of potatoes this summer.

In the list of Sunday Schools represented at Rickreall at the recent convention as printed last week the name of Oak Grove was overlooked. Oak Grove is one of the live members of that association and is rarely absent at roll call.

Monmouth has two repair shops at present, after going through the summer without any. Mr. Leonard arrived from Brownsville Monday morning and promptly started at work and the same day Dean Sellers came down from Banks and under the employment of G. E. Evans started the Electric shop in action once more.

James Goodman, who has spent the summer working in Tillamook county is with relatives in Monmouth this week.
