Monmouth Meditations

Snow is a matter of delight to the young who like to wallow in it, but when a man reaches a certain age a very little of it goes a long ways.

Monmouth has a number of unusually useful public citizens and we might specify names did we feel so inclined. And L. P. Gilmore is well up in the van.

Having played with an outraged public sentiment about as long as it was safe to do so the coal miners now accept a pretext to return to work. Just what was accomplished has at least a debit side if it has any credit.

There are people who believe the earth has now an appropriate mantle of white for the end of the world scheduled to appear Wednesday the 17th. However, barring anything more than the usual run of bad fortune, the Herald expects to issue as usual on Friday the 19th. It will be the last chance of the advertiser to speak a final word to the local Christmas shopper and people with tidings of that sort should not fail to take advantage of the opportunity.

The Sinn Fein orator says there are minorities in Ireland as well as elsewhere and the opponents to the Irish Republic number only one fourth of its population. He might have added there are minorities in the British Isles as well as elsewhere and that the word is synonymous with the Sinn Feiners.

According to Lecturer Matthews, it is well to have the instruction of youth in the hands of specialists. Thus mathematics should be taught by a mathematician, art by an artist, athletics by an athlete and morality by a theologian. And it must be admitted there is reason in his argument.

Seeing the only way to get away from home just at present is to fly or use snow shoes, and as neither are handy, all will have a fine chance to do their Christmas shopping at home The probability also is that all will be better served there than any where else.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.
