

**Uncle Sam's Child Special Tours 'BURBANK AT 71 LAUDS QUALITY WHEAT'**

The first of Uncle Sam's proposed great fleet of Child Welfare Specials is on tour. It is the step toward rural maternity and child protection. It is but a part of a great federal plan of the Children's Bureau of the Department of Labor to carry instruction of maternal and infant hygiene. The big gray automobile shown above is now traveling from village to village in Kentucky assisting in a nutritional survey and carrying welfare messages to babies on farms and in villages. You can see a mother ready to enter the car where a government nurse and doctor will instruct her and examine the child she has brought. The rest of the family awaits outside.

Luther Burbank, America's great horticulturist, celebrated his 71st birthday last week by working his garden at Santa Rosa, Cal. "And I find," he said, "that I can accomplish more at 71 than I did at 21." He thinks his major discovery of the year was "Quality wheat" which has found much favor in America, Canada, and Australia.

**TOM THUMB FURNITURE INTO MUSEUM**

Tom Thumb's furniture is to be preserved. The town of Middleboro, Mass., where the famous "tiniest couple on earth" made their home, has arranged a special museum where the miniature pieces will be on display. Count Magri, second husband of the late Mrs. Tom Thumb, shown in the picture with a Boston newspaper woman, has announced that he will gladly give the furniture to be thus preserved. An idea of the actual size of the pieces may be had in comparison with the reporter shown here, herself a small person. Tom Thumb and his wife were made famous by the showman, P. T. Barnum. They also were presented to European royalty.

**FAR-WEST JOINS IN FARMER-LABOR MOVE**

The far-west is in with both feet in the national action of the All-American movement which got under way in the recent congress at Chicago—and looking to action at the polls this fall to get legislation desired both by agriculture and labor. Upper is Oscar H. McGill of Seattle, president of the Western Cooperative Timber Mills; lower, Ernest O. F. Ames of San Francisco, president of the Pacific Cooperative League.

**THE KITCHEN CABINET**

He has respect for other men, whatever their clime or creed; He hates masking as brothers when they come to him in need. He measures all men by their worth, And meets them on the soil As brothers of a common birth, All children of one God.

—Francis Smith.

**COMPANY GOOD THINGS.**

For a company luncheon creamed codfish and potato served in baked potato shell is both a dainty and wholesome dish. Prepare the creamed codfish as usual, bake the potatoes, cut them in half and remove the potato.

Mash with butter a little cream and seasoning. Put a tablespoonful of the codfish in the shell. Add some of the potato, brush the top with egg and set into the oven to brown. Garnish with a spring of parsley.

**Lettuce Salad With Cheese Balls.**

Make balls of seasoned cream or cottage cheese. Roll some in chopped chives and some in nuts. Dispose in nests of head lettuce and serve with a good boiled dressing.

Another attractive cheese salad may be prepared as follows: Use one of the little revolving ice-cream cones used in serving cream. Rub the inside with olive oil, line the mold with cream cheese, mixed with cream to make it of the right consistency. Fill with chopped, salted celery mixed with a little mayonnaise. Carefully turn out on a lettuce leaf.

**Grape Bavarian Cream.**—Soak one-third of a package of granulated gelatine in cold water to cover. Dissolve over hot water, then add one pint of grape juice sweetened to taste. Place in ice water and stir. As the mixture thickens, stir into it one and one-half cupsful of cream whipped. Decorate the sides and bottom of a mold with split almonds, dipping each into a little of the dissolved gelatine. Carefully turn in the mixture and set away on ice to become firm. When serving garnish with frosted grapes. Wash the grapes then dip in egg white, then in granulated sugar. Arrange on grape foliage with the cream in the center of a large chop plate.

Rings of shapely muskmelon, with the rind removed, filled with ice cream garnished with preserved ginger, with a bit of the sauce for each, makes a most delectable dessert.

**WHY Mistletoe Checks Certain Hemorrhages**

There is a brand new medicine, just discovered in France; it is the extract of our old friend the mistletoe. Dr. Charles Greco Cusston, the Swiss correspondent of the New York Medical Journal, in reporting it to that pa-

per says, however, that the American mistletoe will not do, as its effects are different from its French sister. The new preparation is called viscum album. It was discovered by Dr. Gullier, and he and Dr. Doyan have had great success with it in checking certain forms of hemorrhage. It is given either in the form of pills or injections into the veins. Its effect is to dilate the blood vessels by paralyzing the vasomotor centers of the nervous system; to increase the systolic energy of the heart and slow the heart beats; to cause contraction of the unstriated fibres of the muscles. Intestinal hemorrhage due to typhoid fever is checked by it, and it is called admirable for use in hardening of the arteries.
