Nineteen Protestant Churches of Oregon Are Associated in the Project, Which Has a 1920 Campaign Budget of \$336,772,572.

LYMAN L. PIERCE

Director General of the United Simultaneous Financial Campaign of the Interchurch World Movement.

There are at least 60,000,000 young people of school age in China for whom there are at present no educational facilities at all. Included in the program of the Interchurch World Movement which will be explained at the conference to be held in this county early in April are five universities in China each involving the cooperation of from four to six denominations.

In no part of China is there a med ical force at all adequate to the needs of the situation. In one province there is but one doctor to five millions of people, and missionaries living in lone ly stations must travel many days to procure medical help in case of need

The program of the Interchurch World Movement, based on a carefu survey, will include the strengthening

# COUNTY CONFERENCE TO BE HELD IN APRIL

Interchurch World Movement to Send Big "Team" Here.

TO SHOW RESULTS OF SURVEYS

All Local Protestant Churches Co-operating in Movement Will Be Represented.

Early in April the Interchurch World Movement will hold its conference in this county. Representatives are now being selected by the local Protestant Churches of denominations associated with the movement, and from present reports the attendance at the conference will number well into the hundreds. In addition to the representatives selected by the churches, the conference will be open to all church members and friendly citizens who wish to attend.

The meeting place probably will be the county seat, and the attendance will be composed of the membership of the Protestant churches of the county.

The conferences will last one day only. During that day will be presented the whole program of the interchurch World Movement for promoting co-operation in missionary and general church activities among the Protestant churches. Time will also be given to discussion of the local problems revealed by the Interchurch Movement's survey of religious conditions throughout the United States.

This county conference will be just one of the 2000-odd to be held throughout the United States on approximateiy the same dates.

No Sidestepping of Problems.

It will be, it is said, a very exceptional county that does not hear some more or less unpalatable truths concerning unchurched areas, or wasteful competition, or underpaid and absentee preachers. Not many counties, it is stated, are able to show an average ministerial salary higher than the average for the whole United States, which is \$937, while barely one-third of the entire Protestant population of the United States, according to estimates made by the Interchurch survey, has an opportunity for regular church

attendance. Besides a full consideration of local problems, the program at the county conference will present the outstand ing results of the world-wide survey of religious, social and economic conditions made by the Interchurch Movement, the material for which has been gathered from every corner of the sarth. Special emphasis will also be taid on the place of prayer in Christian life, the importance of assisting young people in the right choice of their life work and the duty of laying aside a definite proportion of income for religious purposes. Lantern slides will be freely used to illustrate the various addresses.

The conference will be managed by local committees, and the various topics under discussion will be handled by a team of from five to eight men and women, recognized as church leaders in the county or state. This team, in addition to the local meetings, will be responsible for conducting the conferences in seven other counties.

Educational Campaign Prepared This series of conferences represents only an intermediate stage in a great campaign of intensive education in practical Christianity preparatory to the united appeal for missionary funds and workers which will be held by the Protestant denominations co-operating in the Interchurch Movement between April 25 and May 2. The members of the team that will address the county conference were themselves trained as a "faculty" of specialists in the various aspects of the Movement at a series of state and pastors' conferences. Similarly, those who attend the county conference will in turn form a "faculty" for interpreting the message of the Interchurch Movement to their local churches.

Thus it is expected that before April 20 the ideal of church co-operation advocated by the Interchurch World Movement, in place of church competition, and the program of evangelization that goes with it, will be familiar to every one of the fifty million Protestants in the United States.

# EXTENSIVE SLIDE EQUIPMENT TO BE USED IN CONFERENCE

Interchurch World officers having in charge the conference which will be held in this county early in April declare the local church workers exceptionally fortunate, as the stereoption slides and other apparatus used in the State Pastors' Conference in Oregon have been left for use in the county conference. The slides in particular are said to be exceptionally interesting, covering very completely the results of the world-wide survey made by the Interchurch World Movement, as well as illustrating conditions throughout the United States.

Slides to illustrate hymns which were used in the State Pastors' Conference by the New York "team" also have been left for use of the county conference. All in all, it is said that the equipment afforded for this county will equal that used at any of the state conferences. An experienced operator with highgrade lantern equipment will accompany the team.

This is the waist and blouse season. The first thought of a spring suit means that milady will want all that is new and dainty in waists to wear with it. On the left is the ever-popular salmon georgette with its bib front beaded in very attractive design. The piain georgette next to it has the semi-low roll neck, but its tunic skirt is caught gracefully with a band of velvet at the waist. The two waists at the right are in organde, the frilled collar and short vestee featuring the first while the elaborate front on the other is a panel of valenciences lace.
