

## An Investment of Happiness

If you haven't a home, if you've spent years of your life bounding from pillar to post with the whims and moods of a landlord constantly at your heels, if you are just "existing" in a crowded apartment, if you have a wife and kiddies you want to make happy—just consider:

### Is it worth while?

Why not make this INVESTMENT IN HAPPINESS and make each day contribute its complement of Joy, Comfort, Satisfaction and Happiness?

### Own your own home

Monmouth needs home owners worse than it needs houses to rent. What is wrong with a city or country in which the business and professional men rent homes? Is it becoming old-fashioned to "own your own home?"

Let us tell you how you can build with the money you save in rent.

## Monmouth Meditations

The Jersey Breeders were shown the best we have. The Willamette valley dishes out many days as nice in the way of weather during the year as Wednesday was, but none better.

The Germans, it is said, plan prodigious efforts to raise huge crops of sugar during the next year or two. At the present market quotation, if that is the case, it will not take them long to pay off their war debt out of their sugar profits.

In the heat of our own political battles we are losing sight of some lively scrimmages which are taking place in Mexico.

Our observation has taught us that where any one in power deliberately sets to work to shape events to make political issues out of them, the result invariably proves a boomerang.

Independence recently carried a bond election to build a high school gymnasium and now Monmouth, its up to you.

As for Hiram Johnson, he appears to have California nailed down in such a manner that nothing short of an upheaval of nature could tear it loose.

Our gravity water system will be with us before we know it. The next job will be the raising of the wherewithal to pay for it.

Suppose a man approached you and asked for a subscription towards building a gymnasium for the high school, a building that at the same time would serve many of the purposes of a community center. What would you give? Figure out from your assessed valuation what an eleven mill tax would cost you. It is an even chance the amount is less than you would naturally donate.

Any one who listens to the dairyman tell of the value of the food in milk must acquire an added respect for the humble bossy in the back yard who can transform so much nourishing food out of dandelions, burdock leaves and blackberry sprouts.

The cherry trees have blossomed in profusion with apparently not a thought in the world as to whether there will be enough sugar in July to put the crop into cans.

H. Hirschberg of Independence called us up last Friday to deny a few things in the news item in the Stalem Capitol Journal which we copied last week. Aside from the fact that he had not been to Portland to interview the highway commission, that he had not interested himself in any way recently in regard to the highway, and that he knew nothing about any alleged \$4,000 fund, the item may have been accurate. Here is another item relative to Mr. Hirschberg of which we copy from the Corvallis Gazette-Times:—Bob Johnson of Corvallis in an interview in the G. T. remarks: "Joe Hirschberg of Independence has no children, is worth about a million dollars and is working strenuously for the millage measure. I'm in Joe's class as far as kids go and I'm going to be in his class in supporting the College."

A Massachusetts congressman has

grown alarmed over the cost of enforcing prohibition which he says will be eighty-eight millions annually. At any rate it will be worth all its costs and this cannot be said of all government expenditures.

The profiteer is invariably connected with some business beside our own.

What would our grandfathers have thought if they had been invited to get into an automobile and follow up a tour like the Jersey breeders made through the valley this week. The progress of the past thirty years is an indication of the progress which the next thirty will see.

### Higher Education is of direct help to the Country Districts

But higher education in Oregon is crippled by great increases in attendance, by lack of buildings, by the fallen buying power of the present millage support, and by the failure of the millage support to grow.

You are respectfully urged to vote for the new millage support bill on May 2, the Higher Educational relief measure.
