### Mr. B. Wise Says: Why Don't You Sleep at Night

"Sleep, O Gentle Sleep—Nature's Soft Nurse, how have I Frightened Thee, That thou no more wilt weight my eyelids down, And steep my senses in forgetfulness."

#### Nature

Has provided sleep, that great balm to hurt minds—sleep that knits together the nerves for another day's arduous duties.

#### But

Many cannot sleep.

#### Sleeplessness

Or insomnia, is one of the prominent symptoms of eye strain.

#### There

Is danger that it will lead to other disorders.

#### Glasses

Carefully fitted to the needs of the eye, will go often sooth the nerves and make sleep possible to the sleepless.

## Beauty and Utility

are combined in a modern bathroom equipment. Healthfulness too, to a great degree that physicians testify to highly. If your bathroom is of the old fashioned kind, for your health's sake and that of your family have us replace it with a modern sanitary room. It will save its cost in doctor's bill.

### A Good Building Material

and an everlasting building material at the same time.

The Tile Works at Monmouth is making a building tile which will make any kind of building from a dwelling house to a pig pen cool in summer and warm in winter. Especially fine for your fruit, vegetable and milk house.

We also have all kinds of drain tile. Drain tile is your most urgent need. Get that wet land drained.

We will do your draining for you if you wish, but do it your self if you can. Central Tile Co., Monmouth, Oregon.

### Two Good Companies

Following the earthquake and fire that fourteen years ago destroyed San Francisco with a 350 million dollar property damage, the "London" paid \$7,500,000 losses—an amount greater than that paid by any other Company operating under a single name, in this or any other Conflagration. This Record stands without a parallel in the history of Insurance.

On April 1, 1907, after settlement of its San Francisco conflagration losses, the Fireman's Fund Insurance Company was rehabilitated with gross assets of \$5,300,000, reserve \$2,700,000, net surplus \$550,000, an policyholders' surplus \$2,150,000. On April 1, 1920 with the increase in capital stock fully paid, the company has gross assets of \$22,500,000, reserve \$10,000,000, net surplus \$6,000,000, and policyholders' surplus \$9,000,000.

Ford Racer "999" which in 1903-4 started the Ford reputation toward Success by beating the "Mile a Minute" record in the hands of Barney Oldfield and Henry Ford, himself, was recently discovered and bought by W. L. Hughson, Ford Dealer in San Francisco. The car was cleaned up, shined and insured for \$25,000 and sent on an exhibition tour. It was shown at the San Francisco Automobile show and proved to be a great attraction. This car made its debut in 1904 when Henry Ford drove it to success at a speed of one mile in 39.8 seconds on a track built on Baltimore Bay. The "Ford Times" of July 1903, referring to "999" says, "It won race after race in every part of the country. Its performance was a real sensation, not only here but abroad, and did as much to make the name of Ford known as any other circumstance". This car is now on display at the Hughson Ford Agency, Portland.

## Ten miles used to be a long way

WHAT a difference in these motor-car days, when every point in the county is hardly more than "just around the corner."

People's ideas are changing, too.

They're beginning to figure out how much it is costing them to keep a car. And the man who is doing the greatest amount of figuring is the man with the moderate-price car.

### II

There still seems to be a notion in some quarters that any tire is good enough for a small car.

That's not what the man who owns it thinks.

In recommending and selling U. S. Tires we are trying to see his side of the propo-

sition—finding out what he wants in a tire and giving him that.

### III

Large or small, U. S. Tires are built to only one standard of quality—the standard that produced the first straight side automobile tire, the first pneumatic truck tire.

Every tire that bears the name "U. S." is built the best way its makers know how. It isn't the car, but the man who owns the car, that counts with the oldest and largest rubber concern in the world.

### IV

As representatives of U. S. Tires in this town, we offer you the benefit of our experience and advice in settling your tire problem.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or U.Sco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cord.
