Statements of Albany Citizens are Always of Interest to Our Readers

To many of our readers the streets of Albany are almost as familiar as the streets of our own town, and we are naturally interested to read of happenings there. The following report from a well known and respected resident will be helpful to numbers of men and women here in Monmouth.

A. Skaar, contracting painter, 718 East Fourth St., Albany Oregon, says: "I am ready to speak in favor of Doan's Kidney Pills any time for I know from personal experience they are all that's claimed for them. I have been taking Doan's Kidney Pills off and on for a long time and they have done the work. I have always found them just the thing to stop that misery across my kidneys and put them in good condition."

Price 60cts, at all dealers. Don't simply ask for a kidney remedy—Get Doan's Kidney Pills—the same that Mr. Skaar had. Foster, Milburn Co., Mfgs., Buffalo, N. Y.

### "MIRACLE MEN" CLAIM NO POWER IN THEIR HEALINGS

That no church nor creed has any exclusive claims to Divine Healings as practiced by Christ Jesus, is perhaps best illustrated in the works of three healers now holding attention in as many different parts of the United States. It is true that the mind of the people, following any world up-power and which makes the faith healing possible. James Moore Hickson of the Protestant Episcopal Church of England, sent here by his church, has made many healings. Brother Isiah, connected with no church, but taking the Bible as his authority, is said to have made "miraculous" healings from his little houseboat on the lower Mississippi. While Dr. J. S. Riley, first cousin to the late Hoosier poet, James Whitcomb Riley, has been making healings at Washington, D. C., many members of Congress asking for help. None of the three claim any "Divine Power" in themselves—nor do they consider the healings as "miracles." But the fact is, that humanity is being helped by all three.

### Gas-Driven Cars in Denmark.

An advertisement has appeared in one of the Christiania papers offering for sale motors that can be operated with peat gas instead of benzine or petroleum. The alterations have been made in accordance with a Danish invention that makes it possible to use peat gas as fuel for motors. It is said that several thousand of the motors are being used in Denmark, and that they have met with success. The new system is stated to consume from one to two kilos of peat (2.2 to 4.4 pounds) per horsepower hour, according to the quality of the peat.—Commerce Reports.

### Force of Habit.

I heard a fellow from Camp Logan remark recently that he supposed the habit of inspections would become so strong with him that after the war and he returned home he would have to lay everything out in the street each Saturday morning and have his mother look it over.—Chicago Tribune.
