**NOTES
OF INTEREST**
of the Week
d for Infor-
mation of Our Readers.

A building boom has struck Rainier. Grain and alfalfa crops near Prineville are looking fine and making a great growth. Three gold nuggets were found in the craw of a duck by Mrs. J. Q. Rodgers of Albany. Work on the Salem Commercial club's free camping grounds is progressing rapidly. The shortage of gasoline on Coos bay is becoming serious for several classes of industry. Owing to the increase of business the Baker postoffice will be made an office of the first class July 1.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

Rainier entertained the farmers the vicinity last Saturday, there by more than 400 in attendance at a par given by the Rainier commercial club in conjunction with the Allen-Hendrickson Packing company.

Lieutenant R. M. Kelly and Governor Olett of Oregon, forced by heavy head winds to land at Camp Lewis, abandoned their effort Sunday to fly by airplane from Blaine, Wash., to Stockton, Cal. After a three-hour delay they flew to Eugene, from which point they completed their trip Monday.

A dozen blocks of the residence section of Pendleton, in the east end of the city, were flooded when the Byers millrace, which skirts that section of the town, broke through its banks. The Oregon-Washington railroad tracks were undermined for several feet and traffic delayed for five hours.

August Bjorklund, senior member of the firm of Bjorklund & Co., of Portland, is dead as the result of a bullet in the right temple, believed to have been fired by his wife, Mrs. Frankie Bjorklund, and she is in a serious condition at St. Vincent's hospital with a self-inflicted wound in the left lung.

There were three fatalities due to accidents in Oregon for the week ending May 20, according to a report prepared by the industrial accident commission. The victims were James E. Lee, sawyer, Yamhill; George E. Chase, truck driver, Worden, and Murlin Gold, logger, Shoshone, Idaho. A total of 535 accidents were reported.

Adoption of the 4 per cent state indebtedness limitation for permanent roads at Friday's election makes available for the highway commission \$10,000,000 which the special session of the legislature provided, and will also permit another \$10,000,000 road bond issue by the commission some time in the future when the people or the legislature grant authority.

Several thousand acres of hill land in the Flagstaff-Virtue mining district of Baker county have been homesteaded during the past few months, and one tract of about 3000 acres is being fenced. All this is said to be in the interest of cattle men who want the lands exclusively for themselves as pasture lands. The great ranges in eastern Oregon already are disappearing.

Thomas B. Kay and Frank Davey, at a conference held in Salem, have decided to prepare a bill for submission to the legislature at its next session prohibiting the overloading of trucks operating on the state and county highways. It was charged by Mr. Kay and Mr. Davey that several paved roads in Marion county have been badly damaged by these trucks and that the highways are wearing out faster than they can be repaired.

A telegram was received at the offices of the Oregon Public Service commission to the effect that the interstate commerce commission had ordered certain railroads to transport to St. Paul, St. Louis, Chicago and other connecting points for distribution throughout the northwest several hundred empty serviceable box cars belonging to the western lines. Movement of these cars is to begin May 25 and continue for 30 days.

With a small amount of financial cooperation on the part of the state of Oregon, an aerial forest patrol will be established in western Oregon by June 15, according to announcement made after a conference at Eugene between Governor Olett, George H. Cecil, district forester of the federal service; F. A. Elliott, state forester; E. C. Simmons, chairman of the aviation committee of the Eugene chamber of commerce; C. S. Chapman, secretary of the Western Forestry & Conservation association, and Colonel H. H. Arnold, and Lieutenant R. M. Kelly of the army air service. Colonel Arnold stated that the shortage of air service personnel makes necessary the furnishing of observers and watchmen by the state. These being guaranteed, bases will be established in Oregon, with at least three radio stations for receiving reports of forest fires.

Every state measure on the ballot on constitutional amendments and referred measures carried by safe majorities at Friday's primary election. The three relief measures for the Portland street car system were hopelessly defeated. The race for secretary of state was easily decided, Sam Koser piling up a big lead over his opponents. There was no contest for representative in congress from the first district, where W. C. Hawley was nominated for reelection. The nomination for representative in the second congressional district goes to N. J. Sinnott. Fred G. Buchtel and H. H. Corey have been nominated for public service commissioners. For delegate at large to the national republican convention, of whom there are four to elect, Wallace McCamant, Charles H. Carey, Conrad P. Olson and Sanfield MacDonald were in the lead. Nominated for presidential electors on the republican ticket are George, Richardson, Lockwood, Hotchkiss and Hume. All except Hume are from Multnomah county. Chamberlain has been nominated by the democrats for United States senator over Starkweather by a two-to-one vote. On the democratic ticket, the four leading candidates for national delegate (four to elect) were T. H. Crawford, Mrs. M. L. T. Hidden, Will E. Purdy and Frederick V. Holman.

date, according to a letter received by his aunt, Mrs. Agnes Henselson, of Salem.

Hal Hibbard camp, Spanish War Veterans, of Salem, has gone on record opposing the proposed pardon of Henry Albers of Portland, convicted of seditious utterances.

Increases in freight rates amounting to 22.91 per cent are sought by all the railroads operating in Oregon, in a petition filed with the Oregon public service commission.

A check for \$23,053.55, covering the sales of gasoline and distillate in Oregon by the Standard Oil company during the month of April, was received at the offices of the secretary of state.

A. C. Marsters of Roseburg proposes to irrigate more than 5000 acres of land lying north of Upper Klamath lake. He proposes to construct a ditch 75 miles long, the entire project to cost \$40,000.

Prospects for strawberry harvest help seems good this year, according to the Hood River Apple Growers' association. With berry picking still a week off, families are already arriving in numbers.

The last of 1885 cars of the 1915 apple crop handled by the Hood River Apple Growers' association has been shipped to New York city. The clean-up of apples has been unusually late this season.

The McMinnville Commercial club tendered the newcomers of the vicinity a reception and banquet last Friday. More than 150 newcomers and their wives were guests of the club members and their wives.

Total price increases in living necessities averaged less in Portland during the period between December, 1914, and December, 1919, than they did in Seattle, Los Angeles or San Francisco, according to the U. S. department of

labor. The Northwest Construction company, of Portland, which has the contract for the grading and hard surfacing the "west side" Pacific highway between Yamhill and McMinnville, started its paving plant the first of the week.

Anti-Japanese feeling is running high among farmers in the north end of Deschutes county and may result in violent methods to eject oriental laborers imported to work on the large holdings recently acquired by George L. Burt, wealthy potato broker.

Total deposits of the 25 trust companies operating in Portland at the close of business May 4, 1920, was \$149,720,181.32, according to a report prepared by Will H. Bennett, state superintendent of banks. This shows an increase since May 12, 1919, of \$9,416,255.13.

Enlargements of the Umpqua and Butte creek fish hatcheries are outlined by State Game Warden Burghdoff and Master Fish Warden Clanton, who have just returned from that section. Work is also to begin soon on the Ament dam fish ladders. A peculiarity in the salmon run this year, they point out, is the heavy one in the Umpqua and the extremely light one in the Rogue. The former stream has a longer closed season.

TURKEYS ON GENERAL FARMS
These Birds, as a Rule, Are Raised in Small Flocks Where Range is Plentiful.

(Prepared by the United States Department of Agriculture.)
Many turkeys are raised in Texas, as well as a considerable number in Mississippi and Alabama and in western Florida. As a general proposition these birds are raised in small flocks

on general farms, where plenty of range is available. Under such conditions they usually yield a profitable income. Not many ducks are raised in the South, but considerable interest is displayed in goose production, while guinea pigs are raised on many farms. Guinea eggs are used on the home table, as well as being marketed, but as a rule the guineas are allowed to run wild and are not produced on any scale for market purposes.

SUMMER FEEDS FOR CHICKS
Fowls in Confinement Must Be Supplied With Abundance of Green Food and Meat or Milk.

Chicks and fowls in confinement during the hot weather must have lots of green food and meat or milk, or both. If they are on free range they can obtain much of their meat food in the form of bugs and worms and can add to their variety of grain the various vegetable growths that they obtain by foraging. This is equally true of the fowls.

How to Clean a Clock.
Take off the pointers and face; also take off the pendulum and its wire. Remove the ratchet from the "tick" wheel, and the clock will run down with great velocity. Let it go—the increasing speed wears away the gum and dust from the pinions, the clock cleans itself. Put the least bit of sperm oil on the axles. Put the machine together, and nine times in ten it will run just as well as if it had been taken to the shop. If instead of a pendulum, the clock has a watch escapement, this latter can be taken out in an instant, without taking the works apart, and the result is the same. It takes about 20 minutes to clean a clock and saves the bill for repairing.

STOMACH TROUBLES

AN IRRITABLE, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach troubles by Chamberlain's Tablets after years of suffering. These tablets strengthen the stomach and enable it to perform its functions naturally. Try them. They only cost a quarter.
