

Children's Eyes

Right now, at the beginning of school, you should make sure that your child's eyesight is unimpaired. Many a child has found it impossible to study because of eye trouble.

Many children are cross and irritable from the same cause.

Lack of glasses at this stage may bring a life-time of eye trouble—and expense.

An examination will determine the exact condition and needs of your child's eyes and you'll be glad to know.

Are You Getting Your Share of the Millions Saved by Quantity Production

The price of the Ford Car and the Fordson tractor today, compared with other products is the lowest in its history.

Nothing less than an industrial miracle of ever increasing quantity production has made this possible. Your shrinking dollar holds its value in purchasing Ford Products,

Nothing slighted in quality, nothing underdone in workmanship and the price holds constant.

Because of this miracle the Fordson tractor is the cheapest in the world as well as the best. It is the tractor your neighbor uses. It is the tractor you should have.
