FULLER PAINT

THE life, the value, the beauty of your home, depend on the care you give it. Weather-beaten and warped siding, cracks and open joints are forerunners of decay. Many property owners neglect to look for such signs, judging their houses and buildings by general appearances only. It is good business to make regular inspection of your property, and to use paint of good quality, which is the surest preventive of decay. Through the varying conditions of weather in all their extremes, FULLER Paint has proved both its preserving and beautifying qualities—a Pacific Coast Product for Pacific Coast requirements. 71 years of paint manufacturing experience are back of every brushful of FULLER Paint.

Some of the FULLER Products

HOUSE PAINT	DECORET—combined stain and varnish in all shades for refinishing furniture, etc.
FLOOR PAINT	VARNISHES
PORCH and STEP PAINT	DEKORATO—the Sanitary Kalsomine
SHINGLE STAINS	AUTO ENAMEL
SILKENWHITE ENAMEL—For interior woodwork.

Why?

The Great Draw-bar Power PULL of the FORDSON

ONE REASON: There are no slacker pounds in the Fordson. The Fordson's every ounce is full of pull.

ANOTHER REASON: The efficient worm drive, eliminating the bevel and many spur gears, delivers the pull of the motor to the drawbar.

The Fordson is light, strong, efficient and lasting.
