SIMPLE AND DURABLE RACK FOR SEED CORN

Can Be Made From Small Piece of Welded Fence Wire.

As Near Mouseproof as Any Device Can Be Made When Suspended From Ceiling and Affords Ample Air Circulation.

A simple and durable rack for storing and drying seed corn can be made from a small piece of welded wire fence. This rack when suspended on a wire from the ceiling is as near mouseproof as any such device can be made, and affords ample space for circulation of air. As only about eight inches of fence including one upright wire is required per rack, a large number of them may be made at a very small cost.

To make one of these devices cut the lateral wires of the fence four

Homemade Seed Corn Rack.

inches from an upright wire and on both sides of it. Sharpen the ends of the lateral wires and bend them slightly upward so that the ears of corn will not slide off. A piece of hay wire can be attached to the upper end forming a handle. Some fences are made with the lower wires so close together that it may be necessary to cut off every other one to keep the ears from touching and to allow good air circulation.

SILAGE OF BIG IMPORTANCE
Use of Silos Becoming More and More Common Than Ever Before—Some Advantages.

At this season of the year, the question of silage is always an important one. There is less argument needed for silos at the present time than has been true in the past for their use is becoming more and more common. Some of the principal advantages of silos are, they require less space for roughage than any other type of storage; silage shows a good effect on stock; it provides succulent feed in summer as well as in winter; there is no waste in feeding silage, for if it is of good quality the cattle will clean it up; it is easier to handle in winter or during a busy time than shock fodder; its value as a feed has increased in proportion to other feeds so it is just as economical to use as it ever was.

BIG ESSENTIALS IN POULTRY
Breeder Should Aim for Early Maturity and High Egg Production for Best Results.

Early maturity and high egg production are the two essentials in profitable poultry keeping. If the standard of the fancier does not make for utility or is a hindrance to constructive utility breeding, then the standard is in need of revision. Whether it be in cattle, horses, sheep, swine or poultry, the score card that discriminates in the least against utility value is a hindrance to the best development of that breed. Of course there are certain distinguished breed characteristics that must be maintained, but these, as a rule, are not the fine points which are a continual hindrance to the good breeder. Fortunately, public opinion is on the side of the constructive breeder.

ALFALFA DIFFICULT TO CURE
Where Two Cuttings Are Made Grass Is Green at Each Time on Account of Moisture.

When two cuttings of alfalfa are made, the grass is very green at the time of each cutting. It is therefore difficult to cure, not only because of the large amount of water the leaves contain, but also on account of the large and succulent stems. With very good hay weather the first crop may be put in the mow in about five days after it is cut, by allowing it to lie in the swath and with the use of a hay tedder. On the other hand, rainy weather will result in a poor quality of hay.

POULTRY CONFINED TO YARDS
Fowls Should Always Be Supplied With Green Feed—Good Range Is Best for Chickens.

Chickens confined to small yards should always be supplied with green feed, such as lettuce, sprouted oats, alfalfa or clover, but the best place to raise chickens successfully is on a good range where no extra green feed is required.

ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pain. Handy tin boxes of 12 tablets cost few cents. Druggists also sell larger "Bayer packages." Aspirin is trade mark Bayer Manufacture Monoaceticacidester of Salicylicacid.—Adv.

Determining Height of Mountains.
The height of mountains is ascertained by barometric observation, showing the pressure of atmosphere at the lower and higher levels. An instrument called the mountain barometer is graded especially for this purpose. It can also be done with a leveling instrument and theodolite, but either way requires technical knowledge.

His Reason.
Speaking of politics and elections, we knew a man once who announced that he would vote for a certain candidate for office. When asked for his reason, he replied that the candidate was his friend. And when they asked him if he had no other reasons he said no; he said he didn't need any other reason. We have liked this man ever since.

Cuticura Comforts Baby's Skin
When red, rough and itching with hot baths of Cuticura Soap and touches of Cuticura Ointment. Also make use now and then of that exquisitely scented dusting powder, Cuticura Talcum, one of the indispensable Cuticura Toilet Trio.—Adv.

Grecian Girl Provides the Home.
In some parts of Greece no girl can ever hope to find a husband until she has a home of her own. Hence, providing his daughters with houses is an onerous duty which falls to the lot of every father.

Thought for the Day.
"A man is relieved and gay when he has put his heart into his work and done his best; what he has done otherwise shall give him no peace."

Peril in Iodine Fumes.
Fumes of iodine have recently been urged as a method of administering that drug preferable to the usual tincture. It has been shown by experiments that fumes are absorbed through the skin and when inhaled are absorbed by the lungs, but it is shown also that inhalation is very dangerous even in small quantities, especially when there is any disease of the respiratory passages.

"Pape's Diapepsin" for Indigestion.
"Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only 60 cents at drug store. Absolutely harmless and pleasant. Millions helped annually. Best stomach corrective known.—Adv.

Proposing in Siam.
In Siam a declaration of marriage is very simple. It is considered a proposal merely to offer a lady a flower, or to take a light from a cigarette if she is holding it in her mouth, so that even the most timid of youths need not fear the ordeal.

Velocity of Wind.
When wind travels
