

**HE AGREED.**  
 "That remark that Mr. Gruff made tonight, about not being able to see how so intelligent a man could get married, was very impolite."  
 "Well, Gruff doesn't stand on formalities—he's a great stickler for truth."

**Growing Sensitive.**  
 "Do you place a kind act to your credit every day?"  
 "I sometimes hesitate," replied Senator Sorghum. "It is getting so you can't boost a friend without being suspected of playing politics."

**An Exception.**  
 "It is strange that statesman friend of your thinks it is his duty to whip his children."  
 "Why is it strange?"  
 "Because, I understand he is opposed to a duty on hides."

**MUST PRESERVE THE SALMON**  
 Why the Systematic Destruction of Fish in the Yukon River Should Be Prohibited.

In the outposts of the far North is an important churchman, Hudson Stuck, archdeacon of the Yukon, who, writing in the New York Times about the disappearance of big game, says

that the concern should be not so much about big game but about a far greater danger which threatens all the inhabitants of the interior of Alaska, namely, the destruction of the Yukon salmon, main subsistence of the whole country. Indeed he says the whole economy of the Yukon country is built upon dried salmon. All the other resources of the country are more or less dependent upon this noble fish. The salmon is the harvest of the rivers, the only generally dependable recourse, although, like the harvest of the earth, it has its fat and lean years. To save the salmon the archdeacon says there is no recourse but the passage of a bill by congress forbidding commercial fishing in the Yukon and adjacent waters.

**How Cheap Power is Produced.**  
 The tests of the Clarkson tidal turbine on the River Mersey are stated to have shown that electric power may be produced at less than a penny per kilowatt hour. The turbine is a row of buckets or paddles attached to endless chains and running over sprockets mounted on a floating framework, one row of buckets being propelled under water while an upper row travels backward in the air. The buckets are driven by the pressure of the tidal currents, giving power for driving the dynamos or other apparatus. Being reversible, the mechanism operates on an ebbing as well as a flowing tide, and the great difference in the hour of the tides in neighboring estuaries has made possible an ingenious method of keeping up the operation during even the half-tide period of no currents.

An appropriate present for a miser would be a chest protector.

## The KITCHEN CABINET

As the uncouth oyster that lies beneath the deep  
 Within its rough and homely shell a precious pearl may keep;  
 As gems of precious value and veins of purest gold  
 May lie beneath the surface of a naked, bloodless mold—  
 So God hid wisdom's heart with the subtle traits adorned  
 In one to whom he hath no outward grace allowed.  
 —James Gardner.

### A TEA-TIME CAKE OR TWO.

For those who practice serving afternoon tea, a few choice cakes and sandwiches are needed to accompany the refreshing beverage.

**Oriental Tea Cakes.**—Work one-fourth of a cup of shortening until creamy, add one cupful of brown sugar gradually, beating constantly. Dissolve one-eighth of a teaspoon of soda in one tablespoonful of water and add this to the first mixture; then add one-half teaspoon of vanilla and one cupful of flour. Mix it until it holds together well and leaves no crumbs in the bowl. If it separates add water a drop at a time until the mixture can be molded into small balls. Place the balls on buttered tins an inch and a half apart and bake in a quick oven until delicately browned. This recipe will make 49 cakes.

**Ham Tomato Toast.**—Take one-half tablespoonful of minced onion and one tablespoonful of minced green pepper; cook in two tablespoonfuls of butter, then add two tablespoonfuls of flour, a teaspoonful of sugar, a few dashes of pepper, one-half teaspoonful of salt, one-half cupful of minced ham, and a cupful of tomato puree. Serve on toast.

**Almond Toast.**—Mix five cupfuls of flour, one and one-half cupfuls of sugar, one-fourth of a cup of butter, one-half cupful of milk, one-half teaspoon of vanilla, four eggs, two teaspoonfuls of baking powder, four tablespoonfuls of olive oil. Mix as usual, adding at the last one-fourth of a pound of split unblanched almonds. Knead lightly and well, using flour on the hands to keep from sticking. Turn into three well greased bread pans and bake in a moderate oven until brown. Cut the loaves in half-inch slices and place them crosswise in a pan to brown; turn so that the sides will brown. Cool before packing away. These are excellent to serve with tea or coffee and will keep for weeks in a dry place.

### BREAD SUPERSTITIONS

Borrow bread and you'll always be poor.  
 Carry a crust of bread in your pocket for luck.  
 If you burn your bread someone is angry with you.  
 If you drop a slice of a loaf of bread friends are coming.  
 If you are fond of the crust of bread you will marry early.  
 If you cut bread unevenly it is a sign you told a lie that day.  
 If your bread falls buttered side down it is a sign you committed a sin that day.  
 If you make good bread or biscuits it is a sign you will marry a handsome man.

### ODD SAYINGS

You may dance on the ropes without reading Euclid.  
 Set thy expense according to thy trade.—Dutch Proverb.  
 The fellow who isn't fired with enthusiasm is apt to be fired.  
 "Love, the gift," is sweet, but "love the debt," may become a fretting bond.  
 We speak of our human relationships as "ties," but often we make them fetters by our unreasonable demands.  
 The constant struggle to measure up to a high ideal is the only force in heaven or on earth that can make a life great.
