

FOUR GREAT AMERICANS FROLIC FOR A DAY

When we hear of such men as Henry Ford, the automobile marvel; Thomas Edison, the electrical wizard; John Burroughs, the great naturalist, and Harvey S. Firestone, the great rubber king, having a reunion, we naturally think of splendid hotels and a large city as the site of their day-of-frolic together. Not so, however, with them, for the one day that they set aside each year is spent in the country. This year they all reported at Yama Farms Inn, at Napanoch, N. Y., where they cast aside all formalities and cares; forgot that they are really great men and romped in frolic like so many boys. They indulged in woodsplitting contests, telling yarns by the fire and being just plain boys once more.

FARMERS EXEMPT FROM PROSECUTION

Department of Justice Declares Movement to Withhold Crops Is Not Unlawful.

Washington.—Because farmers' co-operative organizations are exempt from application of anti-trust laws, the department of justice has given no consideration to the campaign to withhold crops from the markets until prices advance. It was said by F. K. Nebeker, special assistant to the attorney general.

Mr. Nebeker's explanation of the department's attitude followed a statement by G. S. Barrett, president of the National Farmers' union, that he understood federal agents were attempting to obtain evidence for prosecution in Kansas, Iowa and other states.

The Clayton anti-trust act, Mr. Nebeker said, provides that agricultural organizations, not having capital stock nor being conducted for profit, cannot be construed as conspiracies in restraint of trade. Withholding of crops for personal profit he asserted, probably would not be held as organization profits.

Mr. Nebeker also alleged that the limitations on the appropriation act for the enforcement of the anti-trust law would seem to preclude action against farmers, inasmuch as the act specifies that no part of the appropriations shall be expended for the prosecution of farmers who co-operate to obtain a fair and reasonable price for their products.

NO NATIONAL GUARD IN FOURTEEN STATES

Washington.—Fourteen states had no national guard troops recognized by the government on June 30, according to the annual report of Major-General Jesse Carter, chief of the militia bureau, just made public. They were Arkansas, Delaware, Illinois, Indiana, Louisiana, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, South Dakota and West Virginia.

The recognized units had a total strength of 56,100 officers and men at the end of the fiscal year, the report said, against an authorized strength of 106,300, great difficulty having been encountered in obtaining recruits.

Discontent with the national guard service, General Carter said, had been fostered by "tales of unfair treatment during the war, spread by men with grievances, many of which found their way into the public press."

Such complaints, he said, could not be substantiated upon investigation.

BRITISH LOSE IN MANDATES FIGHT

Control of Commission Is Given to Non-mandatory Powers.

Geneva.—The difficulty of any single power or influence dominating the league of nations was demonstrated when the council of that body, in spite of determined protests by the British members, decided finally to give control in the permanent mandates commission to non-mandatory powers.

The commission will be composed of representatives of five non-mandatory powers and four of the mandatory states.

The first American treaties to be filed with the league of nations were put officially on record when Sweden presented the text of two agreements with the United States.

Under the covenant of the league of nations the various countries must file all treaties and agreements made since January 10 of the present year, even those in which the other contracting party is not a member of the league.

The arrival of the first American treaties, although they are minor ones, was an occasion of considerable interest among the league members and officials.

A total of 51 treaties and agreements have been filed with the league. Of these, 15 were filed by Great Britain, 11 by France, four by Sweden, six by Switzerland and 15 by other nations which filed one each. Germany, although not a member, has voluntarily filed nine treaties.

Other camps are in course of preparation.

It is reported that the roundup the

last seven days has resulted in 200 arrests.

BARRICADES UP IN LONDON

Barriers Eight Feet High Are Erected in Downing Street.

London.—The seizure during raids in Ireland of Sinn Fein documents alleged to give details of a conspiracy for damaging buildings in England, was said in police circles to be the cause of the erection of formidable barricades at the entrances of Downing street and King Charles street.

Both streets lead from Whitehall to a group of government departmental offices and also the official residences of Premier Lloyd George and Andrew Bonar Law, the government leader in the house of commons.

October Exports Largest of Year.

MANAGEMENT COSTS LOW FOR RED CROSS

National and Division Headquarters Take Less Than 4 Per Cent of Funds.

Red Cross Roll Call—the fourth annual reenlistment of members in the American organization—will be held here November 11 to 25. Officers in charge of the Roll Call for the chapter of which this city forms a part, however, feel that the canvass in this section practically can be completed within the first week of the time set should the present plans for intensive work be followed out.

In all its work preparatory to the Roll Call the Red Cross this year, as last, has laid stress on the point that the movement is purely a dues-gathering activity, and not to be confused with "drives" or other campaigns. The national body also is laying emphasis on the fact that more than 50 per cent of all membership fees secured here remain in this community, and on the low "overhead" cost of the organization.

"While the Red Cross has not been subjected to that violent criticism of extravagance and waste which has been attached to some activities resulting from the war and its after-effects," said an officer of the national body recently, "we are pleased to be able to make public the fact that management cost at national headquarters and in the 14 divisions has amounted to less than 4 per cent of the total expenditures by the organization. This is a turnover expense so small as to establish a mark for many a commercial concern to work toward, and on its face proves that for the Red Cross, organization efficiency and economy are not only ideals but achievements."

REDS MOVE TOWARD INDIA

Russ Forces Reported Ordered Toward British Line.

London.—General Sokolnikov, commander of the Russian soviet forces on the Turkestan front, has ordered his troops to proceed immediately to the Afghan-Indian frontier, according to a dispatch from Helmsburgers quoting Moscow advices. The Krasnaya Gazette, of Moscow, is quoted as saying it ought to "bring the British government to its senses."

Premier Lloyd George was asked in the house of commons if he had seen reports that Americans had obtained contracts from soviet Russia to the extent of \$200,000,000 for locomotives and all kinds of rolling stock. He replied:

"I did see that, but it left on my mind an impression of an exaggeration."
