Yankee troops on the Rhine do not want to come back. An American dollar there looks like a ten in this country.

When a man has a supply of advice that he can't possibly use himself he usually gives it to his neighbor.

The publicity stage on which Dr. Brumfield has spent a few fleeting hours, promises soon to drop out from under him.

Everybody has been enjoying colds this week and the malady even affected the locomotive that hauls logs from the Siletz road. Its whistle yesterday had a decided rasp to it betokening bronchial tubes that need attention.

Possibly the railroad strike must take place some time or other anyway and now is as good a time as any, as the lady said whose boy was threatened with measles. We suspect that if the strike is really called it will end in the appreciation by a certain group of citizens that they didn't know a good thing when they saw it.

With two business blocks and several residences as building prospects for next year, it looks as if little old Monmouth were going to do its share to relieve congestion.

A New York special states that the "toddle" dance is now relegated to the "hayseed" districts and that all forms of tight holds are not considered good form any more in the gay metropolis. Which may be a dark scheme for luring the surplus idle population of the cities into the rural districts.

Occasionally we meet people who seem to feel their best when there is something wrong with them.

The chrysanthemums have started to blossom which indicates that our long season for out of door flowers is entering its last lap.

We suspect that the number of aspirants for the governorship is greater now than it will be when the time comes to circulate papers in the spring.

There seems to be more or less uncertainty about the proposed \$70,000 special road tax. Some say it is for market roads, some that it will be divided pro rata to the different districts and some that it will be expended at the discretion of the court. A little light would help to clear up the situation.

If the new budget law is effectual in holding down expenditures to the actual amounts appropriated, it will fill a long felt need.

It takes considerable effort to be a business optimist these days.

**CHAMBERLAIN'S  
TABLETS**

**T**HIS is just what you need, madam. Many women who were troubled with indigestion, a sallow, moody skin, indicating biliousness and habitual constipation, have been permanently cured by the use of Chamberlain's Tablets. Before using these tablets they felt miserable and dependant. Now they are cheerful and happy and relish their meals. Try them. They only cost a quarter.
