

**There Love and Happiness
Are Supreme
A Home of Your Very Own**

A Home that you have built and paid for with your own hard earned money—a Home that embodies all your own ideas about how a real house should be built—that's the only Real Home. You owe such a Home to the wife, the kiddies and yourself—it breeds Love, Happiness, Contentment and Better Health. Nothing to worry about and a nice little sum tucked away in the bank each month that otherwise would go to the landlord!

And it is easy to own such a Home—you'll be surprised to learn how cheaply it can be built. See us about plans materials and prices. It will be one thing that you will always be glad you did.

AN IRRITABLE, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach troubles by Chamberlain's Tablets after years of suffering. These tablets strengthen the stomach and enable it to perform its functions naturally. Try them. They only cost a quarter.

FAMOUS ENGLISH RACE HORSE

Eclipse, Bred by the Duke of Cumberland, Was the Sensation of His Generation.

That celebrated race horse, Eclipse, which died Feb. 28, 1789, at the ripe age of 25 years, received his name on account of his being born during an eclipse of the sun, and it became curiously significant and appropriate when in mature life he was found to pass all contemporary horses as regarding speed.

Eclipse was bred by the Duke of Cumberland, a brother of George III, and afterward became the property of Dennis O'Kelly, who on his death bequeathed the animal, along with all his brood mares and other horses, to his brother Philip. For many years Eclipse lived in retirement from the turf, but was in other ways a source of considerable revenue to his owner on account of the many visitors who came to see the renowned hero of the race track who was passing his last days at Clay Hill near Epsom.

In those days it was not the custom to insure the lives of animals, and the fact that Eclipse was insured for an enormous sum only made his popularity the greater. When it became necessary to remove him he was so worn out that a carriage had to be especially constructed to carry him.

The secret of his immense success was revealed by the autopsy, when it was discovered that his heart was of unusual size, as it weighed thirteen pounds.—Chicago Journal.

WOMEN MUST AVOID WORRY

Weakens the Body for Its Daily Fight for Health, and So Destroys Good Looks.

Every minute that a woman spends in worry, weakens the body for its daily fight for health. It adds age, it causes deep furrows to appear on the forehead, it injures the digestion and robs life of all pleasures and peace. So if you wish to keep your good looks, don't worry.

Work gives incentive, and thus life and health, to the organs of the body. It strengthens our will, teaches us patience, perseverance and the courage to endure. It has been the salvation of many. The homely duties that are performed by the house mother each day, the sweeping, cooking and home caring, are wholesome duties which lead to health and strength.

But if women allow their daily tasks to fret and worry them, they lose all of the benefit they otherwise would gain. It is not always the actual work that wears out the nerves and temper and ruins the disposition. It is the spirit in which the work is done which allows worry to creep in.—Detroit News.

Earth Is Slowing Down.

Happily for our convenience, the process is extremely slow, but all the same the fact is that the days are getting longer.

This does not refer to hours or daylight increasing with the advancing year, but to days as timed by the revolution of the earth on its axis.

The earth's power of rotation, says a writer in the Popular Science Monthly, is growing weaker and as a result its revolution on its axis is slowing up. Which means, of course, that the day is lengthening.

An epoch must eventually arrive when the day will be equal in length to the year; that is, to the time it takes for us to revolve about the sun. Then the earth will always turn the

same face toward the solar luminary, just as the moon now always turns the same face toward us, and one-half of our planet will have sunshine all the year, while the other half is in total and permanent darkness.

That is, if the sun still is shining. It may become a dim and chilly orb before then.

HOODWINKED THE GREAT J. P.

How Two Impecunious Reporters Secured Neat Sum From the "King of Wall Street."

The late J. P. Morgan, with all his financial shrewdness, often was hoodwinked. Art dealers were not the only ones who found him an easy mark. J. P. had a heart larger than his head. Unlike most financiers, he was not always unmoved by a tale of woe—whether that tale was genuine or bogus. I have just received a new Morgan anecdote illustrative of this, and illustrative, also, of the fact that the famous banker could enjoy a joke when he was the victim. Two newspaper reporters desperately hard up (as reporters sometimes have been known to be) made a touching plea for a contribution for a new church which a worthy group of colored people were pictured as heroically striving to establish. The story was so plausible and so appealing that Mr. Morgan handed them \$400. Before the pair were out of sight he saw them divide the money! The story goes that for a moment Mr. Morgan didn't know whether to be furious or philosophic, but that he then burst into laughter, called in some of his associates and told them the joke.—B. C. Forbes in Forbes Magazine.

French Instruction

Given by student of London and Paris, also University of Oregon. Private or in class by Mme. Catherine Norrie. For terms apply Room 29, Dormitory.
