

# CANTON IS TAKEN BY GENERAL CHEN

Dr. Sun Yat Sen Fleets and Unification of China May Now Be Possible.

Point.—While the troops of General Chen Ching-king captured the city of Canton, capital of the South China republic, the body-guard of President Sun Yat Sen sought from the presidential palace, according to a dispatch from Canton. Sun escaped to Whampoa on a gunboat.

The greatest task obstacle to the unification of China, namely, Dr. Sun Yat Sen and General Chiang Tao-Lin, apparently are eliminated and the prospect for bringing the whole republic under one government seems brighter than at any time since the establishment of the South China regime at Canton in 1924.

The fall of the southern leader is said to have been the result of an agreement between General Wu Pei-Fu, dominant military chieftain of northern China, President Li Yuan-Hong and Chen Ching-king, formerly Sun Yat Sen's supporter, but who lately came out in favor of a reunited China.

Official circles here assert the elimination of Sun Yat Sen will mean speeding up of the plans to reunify the country. However, they issue the warning that counter-revolution may develop if Sun is able to gather enough troops about him to launch a drive to regain Canton.

Unless Sun is able to retrieve his lost authority, it is believed that Chen Ching-king's coup will result in many southern members of the old republican parliament proceeding to Peking and establishing the necessary quorum to put that legislative body in legal motion once again.

## RAIL UNION HEADS READY FOR STRIKE

Chicagoland.—Formal notice was served on the railroad labor board by the chiefs of ten railroad unions of their intention to go through with a strike to avert one authorized by the 1,225,000 workers whose wages are to be reduced on July 1 under orders of the board.

The letter was signed by R. M. Jervis, president, and John Scott, secretary of the railway employees' department of the American Federation of Labor, and the heads of the 10 railroad unions. Withdrawal of wage reductions ordered by the railroad labor board and the taking back by railroads of contracts farming out shop work is the only way the threatened strike of approximately 1,000,000 workers on July 1 can be averted, rail union executives said.

## MARS STILL MYSTIFIES

Scientists Find Nothing New by Study But Will Continue Observations.

Washington, D. C.—Mars paid its annual visit to earth, but revealed none of its secrets. The giant telescope at the naval observatory here has been trained on the planet steadily for the last few days as it approached the earth, but Professor Ann Hall Jr., in charge of the observations, said that nothing not already known had been gleaned. The observations will be continued from here, however, as the planet recedes.

Professor Hall remarked that in 1924 Mars will approach to within 24,000,000 miles of the earth, and observers will have a better chance to study it than now, when the closest point of approach is about 42,000,000 miles away.

European Wheat Crop is Healthy.

Washington, D. C.—A "general healthy condition" of the European wheat crop with the exception of below average conditions in France, Germany and Poland was reported by the department of agriculture.
