In the dining room, in the parlor, in the hall are many places calling for individual pieces of furniture. For instance, there are stands of various kinds, hat racks, china closets, book cases. In each of these needs and in many others we have a variety of styles from which to choose. They are both

## Biliousness

WHEN you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. There is nothing better.

The man who lies down on his job selects a mighty poor couch.

After all, the world is a first class mirror and looks to a fellow about what he feels.

This has been a cherry year. Growers have had favorable weather, good crops and fair prices.

It appears to us that if the Union Pacific wishes to get control of the Central Pacific the proper way would be through the market, just as any other property is acquired.

Some of the road maps offered to the public evidently are drawn more with the idea of displaying graceful curves and contrasting colors than with any fidelity to actual locations.

More than one brilliant mind never reached a commensurate sphere of usefulness because its possessor stopped to wallow in some miry place by the wayside. Mud is not admired by clean thinking men.

A. C. Gage of Portland who for some time past has been helping to put the "go" into goats and who is publisher of the Angora Goat Journal was a local visitor Saturday, visiting the herds of breeders in the vicinity of this city. He recently sold his milk goat department to a Los Angeles publication.

If it were just a matter of re-hiring, the railroad strike could doubtless be easily ended. But the seniority standings by which the older employes has certain advantages over the man with fewer years service to his credit, stands in the way. The seniority privilege comes with uninterrupted service and is designed to prevent just such happenings as these.

They have an odd method of handling foot pads in Buenos Ayres. There are 46 police stations in the city and when a hold up man is captured he is placed on inspection for 12 hours in each station that all of the officers may become familiar with his appearance and be able to recognize him.

It is an unfortunate fact that opposition to the educational measure which comes up this fall and which compels the attendance of grammar grade pupils in the common schools, springs out of old world conditions, and from people who are trying to perpetuate the same. The world war taught us that what individual citizens think may on occasion become of concern to the general public.

lie. It is only a step from rejecting our schools to rejecting the principles of our government.

Ex-Vice President Marshall insists that the typewriter is more potent to get wars started than the sword is to conclude them. Many a war has been started on grounds no more formidable than the Ku Klux agitation. If the whole people or all of the newspapers of the state were inclined to follow the example of certain hot heads and take sides on this question we could have trouble started with celerity and precision. It is a good thing for the state and nation that the average citizen is so engrossed with his immediate affairs that he has small time to spend tilting at windmills.
