## Check the Costs

Know How Much You Save by Painting Now to Save Repairs

COMPARE the prices of lumber and paint. They will show you how expensive it is to let buildings rot for lack of the protection of paint.

Hundreds of thousands of dollars worth of valuable buildings are wasting today at a rapid rate, because they have not been painted when they needed it. Paint now. Save repairs.

The utmost economy in painting results from the use of a high quality product at the time it is needed. The best paint spreads easily—it saves labor cost. It covers a larger area per gallon than "cheap" paint.

But most important, the best paint serves five or more years longer than "cheap" paint.

It's economy, then, to paint when

your property needs it—without delay—and to use the best paint.

The best paints are scientific in formula and preparation. We've made them for 73 years—to meet the weather conditions in the West.

The best materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc and pure colors—are combined in Fuller's Paints in scientifically exact proportions with long-time skill.

### Free Advice on Painting

Ask our agent for advice, color cards, etc. Ask the Fuller Specification Department about the most desirable color schemes, color harmony and any other details.

THIS is just what you need, madam. Many women who were troubled with indigestion, a sallow, muddy skin, indicating biliousness and habitual constipation, have been permanently cured by the use of Chamberlain's Tablets. Before using these tablets they felt miserable and despondent. Now they are cheerful and happy and relish their meals. Try them. They only cost a quarter.
