Watch Repairing

The treatment a watch receives when it is left for repairs means years added to, or years taken from, its usefulness as an accurate timepiece.

When you bring your watch here for repairs, cleaning, oiling, the careful, skillful work, and use of factory parts, and materials, are the greatest protection you can give your watch.

You also protect your pocketbook, for our charge is very reasonable and our good work puts off a long time the necessity of buying a new watch.

The Letter Box

Monmouth has many beauties. Its location and environment are charming and it has many fine homes. The new bank building is charmingly inviting within and without. Its "rest room" for patrons is especially progressive. We have a number of attractive and up-to-date business houses and the beautiful and charming Normal School buildings and campus. The attractive public schools, the paved streets, the sidewalks, etc., are all to its credit. But oh, the weeds. Along the walks, in back yards, and "Tell it not in Gath" in some front yards also.

Can we not get rid of these weeds; by common consent, by local pride or by moral persuasion, through some law enacted by the powers that be? Weeds are most unlovely and undesirable from every point of view, menacing the lawns, the gardens, the fields, and our peace of mind, and detract very heavily from the beauty of our city.

Monmouth is known from one end of the state to the other because it is the home of the Normal School. Hundreds of students come and go annually. Shall we be "Monmouth Beautiful" in the pictures painted by memory's brush for these men and women throughout the years to come? It is a community problem. Let us kill the weeds and have "Monmouth Beautiful".

The Rebekah Club met in the Community House Wednesday afternoon. Owing to small attendance no new business was taken up.

This is a Club for all Rebekahs, not just for Past Grands and the purpose at present is to take up any sort of activities for raising the necessary funds to furnish the new Odd Fellows' Hall. This is something important to all, and the co-operation of every Rebekah is needed. The possibilities of such a club is unlimited, but the membership of all is required or else the club as a form will be dropped. It is almost impossible to do any definite work at the regular Lodge meetings.
