CUT HIGHWAY ACROSS JUNGLE

First Road to the North Coast
Runs Through Santo Domingo Republic.

OPENS UP RICH TERRITORY

Cuts Off From Ten to Twelve Days of Long and Tortuous Journey From San Domingo City to New York.

New York.—For the first time since Christopher Columbus landed on the island of Haiti a road has been opened in the Dominican republic from Santo Domingo on the south to Puerto Plata on the northern side of the island, thus connecting the two principal seaports of the republic and opening to cultivation some of the richest agricultural lands on the island. Incidentally the new highway cuts off from ten to twelve days of the long and tortuous journey from Santo Domingo City to New York.

American marines, in the times when they were not busy maintaining order in the disturbed republic, have built this highway, which holds out rich promise for the future development of the island. About 150 miles long, it puts Puerto Plata on the north and Santo Domingo City on the south in close touch with coastwise shipping on both the Atlantic and Caribbean. Freight and passenger traffic from Santo Domingo City, on the Caribbean, which heretofore had to be carried around the south, east and northern ends of the island to Puerto Plata before going north, a journey of from ten to twelve days, may now in a few hours proceed over the new road to Puerto Plata for shipment.

Columbus Church Stands. When Columbus landed on the site of Santo Domingo City in 1509 he founded the church of San Nikola, which is still in existence. Now the missionaries of the Episcopal church in the Dominican republic, in commemoration of the completion of the new highway, are establishing another church at Puerto Plata. Land has been secured and in a few months the new edifice will be dedicated by way of completing the link between the two sections of the republic.

Under the Rt. Rev. Charles B. Colmore, D. D., Episcopal missionary bishop of Porto Rico and the Dominican republic, Archdeacon William Wyllie and his wife have been the leaders in the movement to establish the new church, and Mrs. Wyllie enjoys the distinction of being the first woman to make the journey over the new highway from Santo Domingo City to Puerto Plata. Mrs. Wyllie who has just passed through New York on her way back to Dominica, having made the journey from the island to Portland, Ore., and back to attend the Episcopal general convention, is one of the busiest individuals in the little West Indian republic. In addition to her missionary duties, she manages the United States government hospital in Dominica and, in a manner of speaking, has presided as master of ceremonies at the birth of all the army children who have been born in Dominica since the beginning of the American occupation. She was the only nurse on the island when the influenza epidemic broke there and has endeared herself to the entire population, native and foreign alike, by her ministrations.

Pilots Ships to Harbor. Archdeacon Wyllie, her husband, is similarly busily employed, Doctor Wyllie is one of those who have carried practical experience with life into the missionary service. At one time in his career he was an engineer on a Scotch tramp ship in West Indian waters. He is credited with knowing more about the Dominican coast than any other man south of the Florida straits, and on frequent occasions when he is coasting about on missionary trips he is called from his bunk during the late and early watches to take the helm and guide the ship through dangerous reefs into port.

Find Skeleton of Slain Indians. Beacon, N. Y.—Excavating for the new government hospital for disabled soldiers at Chelsea, near here, workmen dug up three Indian skeletons. There was a stone arrow head in the chest of each. The spot was on the old headquarters of the Wapingers. The skeletons will be sent to the National museum.

Texan Spends 37 Days Plowing Single Furrow

D. M. Holcomb of Amarillo, Tex., is quite a "plowboy." He has just completed what is believed to be the longest continuous furrow ever attempted. The furrow is 200 miles long, running from Shattuck, Okla., diagonally across the Texas panhandle to Clovis, N. M. It and another, parallel to it, were plowed along the Santa Fe right-of-way to prevent a spread of fire. Thirty-seven days were required to complete the job. Ten mules, three men, two disk plows and a chuck wagon were used in the enterprise.

FISHMONGER DIES A BARONET

Sir George Slight Accumulated \$5,000,000 From Humble Start in England.

London.—America furnishes many instances of millionaires who rose from the ranks, but it is doubtful if even in America a millionaire ever made such a humble start in life as did Sir George Frederick Slight, first baronet of Wetherby hall, Great Grimsby, who has just died leaving a fortune of nearly \$5,000,000.

Sir George began earning his living as a boy by gathering shellfish on Cleethorpes beach and hawking them through the town. He rose finally to be the largest individual owner of steam trawlers in the country. The greater part of his fleet was used during the war for mine-sweeping and submarine patrolling. For the services he rendered the country in this way he was made a baronet, and the conferring of the title provoked no such scandal as has grown out of the award of many honors in recent years.

GIVE PRIZE DOG NEW GLANDS

"Alibi Billy," Winner at 58 Shows, Has Operation to Give Him New Life Lease.

Taylorville, Ill.—"Alibi Billy," prize beagle hound and winner in fifty-eight dog shows in the central west, has another lease on youth and another claim to fame as the result of an operation for the transplantation of glands. In the opinion of local dog fanciers he is one of the first prize dogs to share with man this new mode of rejuvenation.

"Alibi Billy" is owned by W. A. Powell of Taylorville. He is twelve years old and that in the realm of dogdom is more than middle-aged. Because his twelve years have given him a rank in bench and field track shows that is said to be second to none in his class, his owner secured a surgeon and had the operation performed. It is believed it will be successful.
