Are You Making or Losing

Success is measured by what results are gained, whether in wealth we accumulate or the character we develop. College experts have figured out for us that manure spread on the ground evenly with a spreader will increase the yield 28 per cent.

This means to every farmer the difference between losing money farming and making money by successful farming.

Anyone who thinks the income tax law will be repealed by referendum this fall should listen to some of the sentiment expressed in the rural districts. The present law may be faulty but the common opinion is expressed that this referendum is aimed to secure no tax at all rather than to correct any defects of the law now in force.

Although it is acknowledged county officials are underpaid there are no lack of candidates for the different positions, competition being keener than for several years past.

After Daugherty has been thoroughly investigated there ought to be some power able to investigate Senator Wheeler. He is said to have had a war record that came close to getting him into trouble.

Occasionally some one arises to criticize the word "Mistland" as applied to prunes and other Oregon products, saying that it is unjust to our weather conditions and creates a false impression in the minds of people who have never seen the state. Of course every one knows that we have occasional mists, especially in Western Oregon and also that we have very much more sunshine and at times do not have enough rain-fall to fit actual needs. The word "Mistland" apparently is an attempt to ape California where they have studied the art of rendering unattractive things pleasing by inventing attractive names and associating their products accordingly. Oregon does not need to turn to any such subterfuge to make its climate attractive. We stand on our own resources and accept the blessings of Nature as our birthright. Oregon prunes, Oregon cherries or loganberries, or whatever it is, should be enough to classify our products.

D. E. Fletcher who in the last session of the legislature was chairman of the ways and means committee is seeking another term as representative as will be noted in our political advertising column.
