LIQUID VENEER

CORNS

In one minute the pain is Gone! Gets at the cause of corns

Dr. Scholl's Zino-pads work like magic, because they remove the cause—pressing or rubbing of shoes. The pain goes instantly. Amateur paring or burning with "drops" (acid) is dangerous—and doesn't stop the cause.

Dr. Scholl's Zino-pads are safe, sure, antiseptic, healing. They protect while they heal. Get a box at your druggist's or shoe dealer's—35c.

Put one on—the pain is gone

Successful

"How did your wife come out with her job of painting the car?" We interestedly inquired. "Fine!" enthusiastically replied the husband of the paint slinger.

A Word With the Old Folks

Elderly People Are Learning Importance of Good Elimination.

IN the later years of life there is apt to be a slowing up of the bodily functions. Good elimination, however, is just as essential to the old as to the young.

Tanlac Relieves Many Ills

Health Ravaged by Bad Heart, Nervousness and Sour Stomach, Mrs. McLean Manages to Avert Disaster. Health and Strength Are Restored. Gains 38 Pounds.

"Take Tanlac—that is my advice to everybody, and it is from one who has tried it," says Mrs. Elizabeth McLean, 4171 Lincoln Ave., Oakland, Cal.

"Four or five years ago I first used it, and ever since then have depended on it. Then I was afflicted generally—had to build up or give up entirely. My stomach was in an awful state, my heart bothered me and I could not eat.

"But six or eight bottles of Tanlac put me back in splendid condition. My stomach troubles gave way; I gained perfect digestion and with an appetite hard to satisfy. I increased in weight from 120 to 158 pounds. Tanlac is my formula for good health. It is and always will be the best."

Tanlac made of roots, barks and herbs, helps build up scrawny, weak bodies, drive out causes of suffering and give the body good health.

Don't suffer pain needlessly. Learn from others. Take wonderful Tanlac. At your druggist's.

Matters Determining Desirability of Town

The Kansas municipalities drew up a list of tests as those most pertinent to the question of what a stranger thinking of settling wants to know about a town.

Healthfulness—How efficient are the milk and sanitary inspection, the health department, and the hospitals? Is the water supply pure, and have I and my family a reasonable chance of keeping well?

Education—Are the public schools, libraries, lectures and concerts, newspapers and higher educational facilities up-to-date?

People—Do the people indulge in religious, social or industrial prejudices? Do the people support artistic and educational programs? Where are the children, in schools or factories?

Recreation—Are there theaters, parks, gymnasiums and museums? Are there active agencies providing good entertainment?

Living—Can we live reasonably well in the town. Are there electricity, gas, telephones, good shopping conditions, good hotels and plentiful truck garden products available?

Accessibility—Does the town have good roads and good train service?

Business—Is there active co-operation between business interests? Can I make good use of my capital?

Employment—Can I get a job in that town with fair pay and a good chance for advancement?

Progressiveness—Is the town up-to-date in its civic consciousness? Has it adequate police and fire protection? Is it a town with a future?—Nation's Business.

Excellent Slogan Is "Let the World Know"

Six banks of Tattnall county have just done a fine thing in advertising. They are advertising their respective institutions in the county papers and in other ways to get more business and to keep themselves before the people who may have business to transact with the financial concerns.

Evergreens for Grounds

One of the most delicately graceful of the evergreens is the Carolina hemlock, and for the small house the Sargent's weeping hemlock, with broad flat top and pendant foliage, should be used as specimen plants where much inferior materials are now used.

For spruces most builders want Colorado blue spruce. It is a beautiful little tree and easily grown.

There are one or two pines suitable for the small place, especially the Swiss stone pine, a compact, roundish little tree. The knee pine, dwarf and flat topped, is also fine for the small place.

Value of Shade Trees

The agents of "progress" will argue that there is no difference between the shade cast by a brick wall and that cast by a living, growing tree. But there is a vast difference, as science has demonstrated.

Zoning Proved of Value

Committees on buildings and plumbing codes and zoning ordinances have been instrumental in revising methods of work in every state. The result has been greater uniformity in design and more economical utilization of materials.

Home Owner Is Best Citizen

Maintaining a high percentage of individual home owners is one of the searching tests that now challenge the people of the United States. The present large proportion of families that own their own homes is both the foundation of a sound economic and social system and a guarantee that our society will continue to develop rationally as changing conditions demand.

THE KITCHEN CABINET

We are very apt to measure ourselves by our aspiration instead of our performance. But, in truth, the conduct of our lives is the only proof of the sincerity of our hearts.—George Elliot.

LUNCHEON SUGGESTIONS

For a nourishing salad, the following will be liked by those who favor bologna sausage:

Holland Salad.—Mix half a pound of bologna cut into very thin slices with one pint of cold boiled potatoes, also sliced very thin, one medium-sized onion shaved thin, and six sardines freed from skin and bones, then cut into bits.

Breslau Beef.—Put lean beefsteak through a meat chopper, season with minced onion, pepper and salt, and add one large soda cracker rolled fine.

Chicken Griddle Cakes.—Beat one egg, add two tablespoons of melted chicken fat, a cupful of minced chicken, half a teaspoonful of salt, a pint of milk and flour enough to make a cake batter; add three teaspoonfuls of baking powder and beat well.

Pear Pie.—Line a baked pastry shell with quartered pears, add a bit of lemon juice and a sprinkling of the grated rind; cover with whipped cream and serve chilled.

Waldorf Oysters.—Put three tablespoonfuls of olive oil in a saucepan with a small onion sliced, one shredded green pepper, fry slowly until well cooked.

Coconut Drop Cakes.—Softening one-half cupful of butter (do not melt it), add a cupful of light brown sugar, a cupful of sour milk, a teaspoonful each of cinnamon, cloves and soda, two cupfuls of flour; beat well, then add one-half cupful of coconut.

What to Eat. For a change from the regular broiled steak, try

Baked Steak.—Rub fine one canned pimento, add a pound of minced beef, one-half pound of minced veal, a fourth of a pound of minced ham, and season with salt.

When done remove the paper, slip the loaf from the paper on to a hot platter and dot with bits of butter.

Creasy Soup.—Melt two tablespoonfuls of butter in a frying pan, add two tablespoonfuls of flour, and when well mixed add a pint of milk and cook until smooth and slightly thick.

Minced Chicken With Green Peppers.—Cover a green pepper with boiling water and cook ten minutes, drain, remove the seeds and cut into narrow strips two inches long.

Dainty Croquettes.—Mix a cupful of boiled and chopped calves' liver with half-cupful of minced bacon cooked brown. Form into balls, dip into egg, roll in crumbs and fry in hot fat until brown.

Strawberry Trifle.—Cut strawberries into halves and mix with granulated sugar, let stand an hour. Arrange lady fingers log-cabin fashion, fill with the sugared berries and cover with sweetened whipped cream.

Chicken Souffle.—With a cupful more or less of cold chicken cut into bits one may have a most delicious luncheon dish.

Summer squash cooked in as little water as possible and drained, then mashed, is most appetizing served with plenty of butter and seasoning.

It is better to eat more often and lightly than to take a heavy meal at any time. Exercise in the open air and sunshine is as essential at seventy as it is at seven.

HOW TO KEEP WELL

DR. FREDERICK R. GREEN Editor of "HEALTH"

CURING INSANITY

FOR many centuries all unfortunates suffering with any disease or condition affecting the mind were looked on as "possessed" or afflicted with evil spirits.

Today, with a better knowledge of mental conditions and with suitable treatment in the form of rest, quiet, suitable nourishment and proper treatment, the number of recoveries is constantly increasing.

The number of recoveries differed greatly in different classes. The largest number of recoveries was among drug addicts.

In those forms of insanity caused by bad habits or the use of drugs, the percentage of recoveries is high.

As a rule, those patients who are going to recover begin improving early in their hospital experience.

When done remove the paper, slip the loaf from the paper on to a hot platter and dot with bits of butter.

Creasy Soup.—Melt two tablespoonfuls of butter in a frying pan, add two tablespoonfuls of flour, and when well mixed add a pint of milk and cook until smooth and slightly thick.

Minced Chicken With Green Peppers.—Cover a green pepper with boiling water and cook ten minutes, drain, remove the seeds and cut into narrow strips two inches long.

HIGHER THAN WOOLWORTH BUILDING

Year's Sales of Lydia E. Pinkham's Vegetable Compound

MRS. ED. DAUGHERTY 1808 ORCHARD AVENUE, MUSCATINE, IOWA

E. Pinkham's Vegetable Compound. In a recent letter, Mrs. Daugherty says, "I was ill for four months before I took your medicine. I found one of your books at my front door and read it. It seemed to fit my case, so I began taking Lydia E. Pinkham's Vegetable Compound, and after I took the third bottle, I found relief. I am on my eleventh bottle and I don't have that trouble any more, and feel like a different woman. I recommend the Vegetable Compound to every one I see who has trouble like mine. I am willing to answer any letters from women asking about the Vegetable Compound."

Mrs. Carr Also Helped. Muncie, Indiana.—"I could not get around to do my work. I took treatments and they did me no good. I had always heard of Lydia E. Pinkham's medicine and I thought it would be like all the others, but I found out after I took half a bottle, as I have proved it wonderful. I am taking it yet and I can do all my work. I am feeling fine now, and it is your good medicines that have done it. I tell every woman of the good I get from taking the Vegetable Compound and from using the Sanative Wash."

The Woolworth Building in New York City, which towers 792 feet above the street, is the highest building in the United States.

If all the bottles of Lydia E. Pinkham's Vegetable Compound sold in 1925 could be placed end to end, they would make a column as high as the Woolworth Building with enough left over to extend from Lynn, Massachusetts to Cleveland, Ohio.

In many little villages as in many thriving cities along the route, who are glad to tell others about Lydia

When Cantaloupe Laughs

A scientist says that vegetables have thoughts, feelings and emotions similar to those of human beings. If that is so, how the average cantaloupe must enjoy the look of disappointment on the face of the person who has just cut it open.

Language in Ireland

The native Irish speak in English or the Irish language. The Irish is a Celtic language, which is now being used by a greater percentage of the people of Ireland. The decline in use of Irish began in the Eighteenth century and the language was gradually superseded by English until 1901, when only 20,000, or 4.5 per cent, of the people could speak Irish.

Why Is It—

That the evening you planned for a quiet one is usually a rip snorter?—that the day you go to the country it always rains?—that all plans made between 1 and 6 a. m. never materialize?—that every time you are taken to the theater you have seen the play before?—that after you have given the waiter the order, you always discover on the menu a far more appetizing dish?—that yesterday's newspaper seems ages old?—that you can never remember the singularly brilliant thought that struck you the other morning in the bath?—that whenever you are in a hurry every thoroughfare turns out to be a one-way street of the opposite direction?—that you can never tell what a woman is going to do next?—Kansas City Star.

Poetic Intoxicant

A new intoxicant has appeared in Japan. In the precincts of a shrine at Kamelido in Japan the other day a policeman on patrol discovered what he took to be a corpse. He telephoned to the village office for a coffin, which was at once sent, and the body put in. On the way to the village office, however, the corpse in the coffin revived and began to sing and dance, to the alarm of the bearers. It was later ascertained that he was a young man, aged twenty-three, who had been made intoxicated by viewing the cherry blossoms.
