

HIGH TIMES

MONMOUTH WILL DEBATE DALLAS, MONDAY EVENING

Monmouth High's debate team will debate with Dallas High Monday evening, February 21. The negative team will travel while the affirmative will meet the foe here. Dallas High met Independence High January 29 and was victorious. We won over Falls City at the same time so Dallas and our team will meet to decide which school is winner.

The team asks that more people, townspeople as well as students, turn out to give their support. No admission will be charged. The debate will be held in the high school building.

Mr. Roth gave the students of the Monmouth High School a great deal of encouragement Monday morning in an address before the assembly. He says there is always time to get a new start on our lessons and pull through. If subjects are very disagreeable for us to study, it is not advisable to take them up!!

OUR EXAMS

Exams—e-x-a-m-s—very easy to spell and not at all hard to pronounce, but oh, what that word signifies!

The night before exams one sits up until the next morning cramming on things that should have been memorized weeks before. Seven-fifteen comes all too quickly and one gets out of bed feeling as though the world was a dreadful and most cruel old place to live in. After a frantic search for the right sock which is at last discovered tucked in the proper shoe, one is dressed and ready for breakfast. The toast is scorched, the milk is sour, and the coffee is too strong, and all together one feels as though a few minutes of weeping would help immensely.

After rushing everywhere trying to find pen, pencil and books one is at last ready to go. Upon stepping out of the door one stubs his toe on the door mat and measures his length on the floor. This time a few angry tears roll down one's cheek when a Normal student who has seen the graceful sprawl, starts snickering. At 9:01 one gets to the assembly just as Mr. Roth is giving a lecture on the uselessness of being late and one sneaks in feeling like a whipped pup. When the bell rings one grabs the books needed before the next study-hall and goes to the first period class. The teacher asks every question one doesn't know and shows off one's ignorance until one almost decides to quit school or else study the lesson next time. Finally the bell rings, and to one's immense relief, that period is over.

Then comes the period for the previously mentioned exam. One holds his breath while the teacher says, "Close your books and get out your pens. Johnny, you may pass the blue books." The teacher puts the dreaded questions on the board and one slams his book shut realizing how a prisoner must feel as he is being led across the "Bridge of Sighs." Finally, after guessing at nine-tenths of the answers to the questions one hands in his paper, thankful that that ordeal is over for a while, at least, and one goes about for the rest of the day silently hoping that it was in 1492 that Washington crossed the Delaware.

—Genevieve Ganiard

Cora: I can't swim.
Jean: Why?
Cora: Cause I'm not in water.

Gladis brought out two small lunches the other noon.
Jean: Gee, I'll bet we founder.
Gladis: (In surprise) Found who?

This is the last issue of the High Times under the present editor and staff. They wish to take this opportunity to thank all who have helped so earnestly in making the High Times better and we sincerely wish the incoming editors all of the success possible.

The report of grades for the last nine weeks were received too late for this week's issue, and will be printed next week.

BASKET BALL

Dallas defeated Monmouth High Tuesday night with a score of 26 to 16. The visitors played a fast, offensive game and won without much difficulty. The Purple and White lineup was somewhat weakened by the loss of Jim Bush who was out because of injury. This is the second basketball game Dallas has won from Monmouth this season.

A preliminary game between the Monmouth Sophomores and the Dallas Freshmen resulted in a victory for Dallas with a score of 13-20.

The Monmouth High School girls played basketball with Silverton Saturday night. The score was fairly even at the first of the game but the Monmouth girls began to lose in the last of the game. However, they were not beaten as badly on our own floor as when they went to Silverton, the final score being 31-18.

The lineup is as follows:
Silverton (31) (18) Monmouth
D. Neal (25) F (11) Greek Riley
E. Keene J C G. Mitchell
F. Alm R C F. Bierce
Niers G J. Hinkle
Desart G C. Light

Substitutes: Silverton, Alderk.

Monmouth, Wedekind, Winegar (4).

The girls went to McMinnville to play the Linfield college girls Wednesday afternoon and Friday night they play Independence on the home floor.

MONMOUTH DELEGATES TO EDUCATIONAL EXPOSITION

Delegates of the Monmouth High School who will attend the annual O. A. C. Educational exposition at Corvallis on February 18, 19 and 20 are Genevieve Ganiard, Jeannette Hinkle, Marvin Smith and Jack Pember. The purpose of the educational exposition is to show the Oregon High School students a view of the work accomplished and the life of a college student.

FROLICETA

The second annual Froliceta was presented to the public last Friday night and was a decided success.

The program consisted of five acts and also some clever curtain acts. The Seniors' act was "The Family Album" in which humorous impersonations of various townspeople were given. The Juniors presented a skit "Cynthia's Strategy." The Sophomores stung was entitled "Who Am I?" The Girls' League presented "A Day in the West," and the Lettermen gave a comedy "A Lovely Day" in which the boys were given a chance to show their ability in impersonating ladies.

The curtain acts were "Prince Charming" by the Juniors, "A Sailors Dance" with Genevieve Ganiard and Alberta Hill. A negro scene was given by the Sophomores. The Training School orchestra gave some very splendid pieces which were ap-

preciated by all.

The receipts of the entertainment amounted to \$66 and will be used to pay for the stage scenery bought last year.

Pay Your Dues!

Students, pay your student body dues! Wednesday noon 31 students had paid their dues. The money is needed and all are requested to pay their dues at once.

Nominees

Nominations for editor and assistant editor were held Tuesday in the assembly at 1 o'clock. Those nominated for editor are Genevieve Ganiard and Constance Bork. The nominee for assistant editor is Constance Bork. The election to these offices will take place Friday afternoon.

Several new students have begun school this semester. They are: Helen Daniels from Sandy, Oregon High School, Myron and Cecil Coats, Joe Gentemann, Jack Pember, and Marion Wilson.

Three new classes are being introduced this term. They are: Sociology under Professor Roth, Higher Arithmetic under Miss Huckleberry and Botany under Mr. Patchin.

Monmouth High's hoopers will clash with the Independence High team Friday night February 11 on the home floor. The teams are more evenly matched this year than they have been for some time. A very fast game is expected.

The Schiek test was given to all the pupils of the training school and high school who wished to take it, Tuesday afternoon in the basement of the training school. The charge for this test was eight cents for each person.

A peppy yell practice was held Tuesday afternoon by Marion Wilson. The students serpentine around the assembly and halls. This was in honor of the Dallas-Monmouth game that evening.

Former Presidents' Wives Exploring Go

The spirit of adventure has called to two wives of former presidents and both are sailing the seas to meet in South America—there to trip together. On the left Mrs. Theodore Roosevelt, widow of "Teddy" and, right, Mrs. T. J. Preston, widow of Grover Cleveland.

Single Family Dwellings to Cost \$2,500,000,000

One quarter of the nation's entire wealth is now represented in homes and their contributing comforts. The investment totals approximately \$140,000,000,000.

"Home owning has been called the key-note to prosperity," says the Indiana Limestone company. "With the steady expansion of American cities far into outlying districts, home building will continue active for several years to come. The influx to the suburb has developed a spirit of civic pride

which has had a marked influence upon residential architecture. Higher living standards is demanded more and better dwellings. Throughout the country architects and builders are improving the character of design and quality of homes erected. Not only the pretentious type of dwelling but the smaller home is now being built with charm and perfection. This is shown in the greater use of stone. To more substantial home building is added the quality of beauty and originality.

"An expenditure of more than two and a half billion dollars for single family dwellings is the estimated total for 1927. There still remains an outstanding need of suitable housing for persons of average means."

Mr. H. S. Brightly, well known in architectural circles throughout the nation offers valuable assistance to architects and builders through his Architects' Service Bureau as a new branch of the Indiana Limestone company, with headquarters at Bedford, Indiana.
