The Part You Don't See

of a suit—more particularly the coat—is the most important element of fine tailoring.

In an Ed. V. Price suit or overcoat it is the basis of neatness, durability, honest construction and superior workmanship, which means the garment is as

Good As Can Be Made

out of high grade materials and the world's best tailors, working with the most up-to-date equipment.

Suit or overcoat from your choice of 500 fine cloths, according to direct or modified style, made to fit and satisfy you perfectly, for half, or much less, the charge of any local tailor.

WELCOME TO FLEET

POWERFUL AMERICAN BATTLE-SHIP'S ANCHOR AT YOKOHAMA AMID SALUTES.

Received on Arrival by the Japanese Warships—City Gaily Decorated With Bunting.

Yokohama, Oct. 18.—Sixteen battleships, constituting the American Atlantic fleet, on its peaceful cruise around the world, are riding at anchor in the Bay of Tokio, occupying a post of honor in front of a like number of Japanese men-of-war, the white hulls of the American vessels making a strong contrast with the somber-hued ones of the Japanese.

In the bay, alive with bunting, gaily decorated tugs and steamers loaded with sightseers are steaming to and fro and launches from the shore and the war vessels are bearing uniformed officers on their official visits of welcome.

Preceded by its tender, the Yankton, the American fleet entered the harbor in a fog that hung over the bay and dropped anchor at 9:30 o'clock Sunday morning, one-half hour later than the time scheduled. This was due to the fog.

The fleet proceeded to its anchorage ground and anchored in four columns in front of the Japanese fleet. When anchors were cast, a reception committee representing every department of the Japanese government and accompanied by attaches of the various foreign embassies and legations and the Mayor of Yokohama boarded the flagship Connecticut and officially welcomed Rear-Admiral Sperry, his officers and men to Japan.

HASKELL SUES HEARST

Deputy Serves Summons in Haskell Suit Under Difficulties.

Omaha, Oct. 17.—After a dramatic scene on the Union Pacific train No. 2, last night, in which the door of his stateroom was burst open by a deputy sheriff, William R. Hearst, the millionaire editor, was served with papers notifying him that suit for \$600,000 had been brought against him for slander and libel by Governor Charles N. Haskell, of Oklahoma, in the Douglas county, Nebraska, district court. The summons was served by Deputy Sheriff Stewart for Smythe & Smythe of Omaha, who are Mr. Haskell's attorneys in the damage suit.

Chinese Revive School Question.

San Francisco, Oct. 17.—The attorney for the eight Chinese companies today communicated with the board of education of this city, demanding that three Chinese girls, daughters of Soo Hoo Fong, a Chinese of American birth and a citizen of this state, be permitted to attend the Jean Parker seminary school an order for their removal to one of the Oriental schools of the city having been made by the board.

The matter calls into question the state law, which says that in any section where separate schools have been provided, no Indians, Chinese or Mongolians shall be allowed to attend schools maintained for the instruction of white children.

Whole Families Die in Flames.

Alpena, Mich., Oct. 19.—Out of the fire-swept district to the north of this city, where flames are spreading untold death and desolation unchecked, come advices which indicate that the number of dead will exceed 50 and may run up well towards 100. Early yesterday it was known that 22 had been sacrificed to the flames. Later advices confirmed the report and added 10 more to the list of victims. It is certain that the casualties will largely exceed every previous report. In some cases whole families lost their lives in the flames.

PORTLAND MARKETS.

Wheat—Track prices: Club, 88c; red Russian, 86c; bluestem, 93c; Valley, 91c.

OREGON BRIEFLETS

Oliver B. Huston, of Portland, has been elected editor-in-chief of the Junior Annual, to be published next spring by the class of 1910.

The office of the roadmaster of the Southern Pacific, from Salem to Roseburg, will be removed to Eugene at once from Drain.

The planing mill and lumber and two boxcars burned at Imbler last week; loss \$3000. There was no insurance. Incendiary is the supposition.

While rescuing her baby from her burning home at Elgin last week, Mrs. Putnam Yeck fell into the flames. Her hair was burned off and her scalp seriously burned. She is in a serious condition.

Dependent over domestic infidelities which had resulted in a divorce between himself and wife on April 9 last, John F. Surrall, a farmer, 61 years old, residing near Albany, shot himself Saturday morning. He died.

Falling down the steps and striking her head upon a fruitcase was the peculiar manner in which Mrs. J. S. Sleight, of Portland, suffered injuries last week that may result seriously and perhaps fatally.

Walport, on the Oregon coast, at the mouth of the Alsea river, has just organized a Commercial Club, fashioned after the Portland organization, and asks to affiliate with the Oregon Development League.

During the present year the wool shipments of Pendleton amounted to over 7,500,000 pounds. This record is not equaled by any other point in the West, not even San Francisco or Great Falls, Mont. The latter was formerly the largest wool-shipping point.

A severe storm last week caused a breaking down of telegraph and telephone wires and shutting off Coos Bay from all communication with the outside world. Two large scows loaded with lumber went ashore in the lower bay and were righted with great difficulty.

Herman Terrill, aged 27, formerly engaged in the bakery business in Medford, lost his way last week while hunting in the Meadows district, about 30 miles northeast of Medford, and is supposed to have perished from exposure during the storm which has been raging in that district since then.

Bernice, 13-year-old daughter of George Ballenbaugh, while seated in front of the fireplace in her home at Canyonville, last week, was seized with a fit and fell forward in the fire, burning her badly. Two hours later her brother was badly hurt by getting his arm caught in the gearing of a prune grader.

Announcement of the Dufur Oil Company of its intention immediately to resume the task of sinking a well on its lease four miles west of Dufur has roused great interest. Oil experts have declared that petroleum is probably to be had if it is gone after, and this has done much to establish the confidence manifested in the project.

Linn county has begun an injunction suit against the Calapooia Lumber Company, which operates a large sawmill about five miles east of Brownsville, to restrain the company from operating its dam in the Calapooia river. The county alleges that because of the dam, the water during freshets overflows the county road, doing much damage.

A dozen farms, aggregating 1500 acres, in the vicinity of Pratum, were leased to Portland parties last week, under an oil well contract. A number of oil experts have visited the place and were convinced that oil could be found, but no one would undertake development work for the reason that the farmers would not sign leases or options.

The new \$40,000 stone building of the Eugene Bible University was dedicated Sunday afternoon with services held in the new building. The Eugene Bible University, formerly known as the Eugene Divinity School, is the school of the Christian Church, and since its organization in the fall of 1895 has had a remarkable growth.

The principal recommendation of Chief Justice R. S. Bean, as president of the board of regents of the State University, to Governor Chamberlain, is the creation of a retiring fund by the legislature for the benefit of superannuated instructors of state institutions, or that application be made to have the university placed upon the list of the Carnegie foundation fund, set aside for that purpose.

Before returning to Washington, United States Senator Jonathan Bourne will go to Coos Bay to discuss with the people there the needs of harbor improvement. Senator Bourne has been in conference with the United States Engineers to gather information as to what they will recommend for Coos Bay. The engineers have made recommendations for two projects for Coos Bay. One is for an appropriation of \$500,000 and the other is for \$2,200,000.

Because it is alleged that he shot at Burt Parry, his wife and son, Lester Wearick, of Center Ridge, aged 14 years, was arrested last week by the sheriff of Wasco county and lodged in jail on a charge of shooting with intent to kill. Parry claims he was sitting on a woodpile at his home in Center Ridge with his son, last week, when young Wearick opened fire on them with a shotgun. The man and his son ran into the house and Mrs. Parry went outside a few minutes after, when, it is said, Wearick aimed his gun at her. The boys he was shooting at had been
