More Than Enough is Too Much  
To maintain health a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by P. M. Kirkland.

# Perfection of Detail

**Bridge & Beach  
"Superior"**

These heaters give you satisfaction. They warm the apartments better than any other stove, because they are made to throw out the heat. You know that with some heaters you are freezing when the stove is red hot. Those are not the "Superior"—wood eaters.

Our "Superior" steel ranges embody best construction and features in these popular style ranges. Attractively nicked, malleable iron joined with cold driven rivets are some of the features of this fine range. It is not an ordinary range. It is not bolted together so that in a short time the bolts work loose, the putty drops out and "air leaks" come in, causing waste of fuel and slow baking. The Superior Steel range is perfection in every construction detail.
