And now comes the gentle rain, which means grass will grow in the Willamette valley. The frost that we had in September may not occur again in half a century. We have never known it to be so severe as early in the season, so do not get discouraged, you who contemplate planting walnut and other semi-tropical trees. Florida had just such a freak in the weather a few years back.

GRAZING FEE IS REDUCED

From \$2000 to \$3000 will be saved the sheepmen of Umatilla county, and from \$25,000 to \$30,000 to the wool growers of Oregon by a reduction in the charge for grazing sheep on forest reserves, made by Chief Forester Pinchot, the announcement of which has just been received by Secretary Dan P. Smythe of the Oregon Wool-growers' Association, through the national association.

This general reduction will take effect for the season of 1929, and will amount to from one to one and one-half cents per head. It is made as the result of a promise to cut such charges when sheep growing became less profitable, made by Chief Forester Pinchot, and A. F. Potter, assistant forester, in charge of the branch of grazing, made at the National meeting of the wool growers held at Salt Lake. It is the result of a general agitation made by the national association, together with the various state associations, through which representations of the necessity of such reduction have been recently made to the forestry service.

The changes in market conditions which have made the sheep business less profitable this past year, especially the greatly reduced prices for wool and the depreciation in the value of mutton, makes the announcement of great interest not only to those who are interested in sheep, but to the man of every allied industry. In 1929 when the promises for a reduced schedule were made it was with the understanding between the stockmen and the forest service that the grazing rates would not be changed for the minor fluctuations in the market which would naturally occur from year to year, but would apply only in case of radical or unusual changes.

The new schedule does not effect the cases where the minimum charge of 5 cents per head has already been allowed or a specially low rate has been fixed on account of some local condition.—East Oregonian.

DOINGS AT THE STATE NORMAL

In addition to the regular class work various social events have rendered the past week at the Normal an unusually busy one. On Thursday evening Dr. Bancroft and D. Lillian Lewis of San Francisco greeted a large audience in the Normal Assembly Hall for the first lecture of the Citizens' Entertainment Course. Dr. Bancroft's ready wit and Miss Lewis' clever impersonations delighted everyone.

The Halloween party given by the Delphian Society to the other literary societies and friends was a decided success. The 5th, 6th, 7th and 8th grades of the training school cast ballots for president and vice president in a straw vote on Friday. Excitement was keen and interest high. The result: a majority of eight votes for Taft.
