Willis S. Duniway is quite contented with Statement No. 1. He is more than pleased with it. Because it gave him the office of state printer. Since he was enabled to secure the nomination at his own hands and election in an overwhelmingly republican state he blesses Statement No. 1. No matter to Mr. Duniway if it result in disbanding the republican party of Oregon as long as it will secure to him a long coveted office it is all serene with him. Statement No. 1 defeated Senator Fulton. It has been the means of nominating a democrat for the United States Senate. It elected Mr. Duniway state printer. An equally good man would in all likelihood have secured the state printers had not Statement No. 1 operated in Mr. Duniway's favor. Mr. Duniway sounds a note of warning to republicans who attempt to suggest the old simple methods of convention nominations. He labors under the impression that the dear people of Oregon have longed for his accession to the sanctuary of the state printers. He believes that the same dear people will rebuke any effort to modify the operation of Statement No. 1, lest they lose him through the coarser screens of the convention mill. It has turned the political complexion of the state of Oregon, yet for the sake of Mr. Duniway (who has always wanted an office) it should be allowed to operate.

John Young was in town Tuesday and called on the Enterprise to say that in sinking for water on his place north of town the well was driven down into a petrified clam bed. He says there was brought up out of the well fossils of many descriptions besides particles of wood. It is interesting to speculate on the process of evolution this old earth has undergone in the ages of its existence. Similar peculiarities are met with in all parts of the country, but of different variety. In the Siskiyou mountains fossil deposits are exposed in great banks on the surface of the earth, deposits that it is certain were cast there by great bodies of water.

**WARM AND DRY TO STAY WELL**

Advice of Noted Authority, Also Gives a Simple Prescription.

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that rheumatism and kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kagon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home-made mixture at the first sign of rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of rheumatism, which is caused by uric acid in the blood which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity when shown the prescription stated that they can easily supply these ingredients, or, if our readers prefer, they will compound the mixture for them.
